Spider-Sense...Tingling!

The Marvel Universe's friendly neighborhood web-slinger

Since his debut in Amazing Fantasy No. 15 in August 1962, Spider-Man has been a hero to millions. Peter Parker was an ordinary teen who received powers from a radioactive spider, and failed to stop the man who would murder his uncle. This led him on a singular quest to take on the mantle of Spider-Man and rid New York City of the bad guys, and we've been rooting for him ever since. For more than 50 years he's been a star of comic books, television, movies, and Broadway, and now, with 192 pages of images with text by Roy Thomas, *The Little Book of Spider-Man* is your authoritative guide to the everyman super hero!

## From Reader Review The Little Book of Spider-Man for online ebook

### Alejandro says

#### The Signature Hero of the Marvel Universe!

*This is the first book, in a series of four, each focusing on some of the heroes and teams of Marvel Comics.*

#### AMAZING BOOK!

This “Little Book of” isn’t as little as you may think. Certainly it’s small (in the sense that it’s 5” x 7”) **BUT** it’s 192 pages long! Where you can appreciate the impact of Spider-Man, inside and outside the comic books, through a visual-and-text journey.

This an European-licensed product which begins with a prose introduction “What’s Extraordinary about Spider-Man?” presented in three languages: Spanish, Portuguese and Italian.

After that, you start an unstoppable tour, divides per ages (Silver, Bronze, and Modern) about many of the main highlights in comic books but also its media appearances in TV & Films, both live-action and animated.

Obviously, with characters like Spider-Man, even in 192 pages, you can’t cover everything, but honestly due its cheap price, you can’t ask of something as good as what you get here.

---

### Harry Lee says

Couldn’t afford the comics when I was growing up ... so this was really a nice walk down memory lane.

---

### Michael says

Vor Arno Schmidt war Spider-Man :D

Wie die anderen Bücher der Reihe auch: Klein, aber fein! Und was für ein herrliches Erlebnis, so viele der legendären Cover und Panels auf engstem Raum versammelt zu sehen.

Allerdings muss ich dabei auch feststellen, dass ich eine neue Lesebrille brauche.
