## **The Patriarchs - Member Book Beth Moore**

Full of twists and turns, ruin and redemption, revelation and mystery, this study of Genesis 1250 keeps participants captivated by the God who stars in it!

Throughout 10 weeks of exciting, engaging intrigue, participants will plunge into the heart of Genesis, to God's remarkable pursuit of relationship and to the unfolding of His earthly plan: that through one nation and ultimately, one man all people on earth will be blessed. Many of the most profound and enduring concepts in the whole counsel of God's Word are initiated in this marvelous book of beginnings.

Participants will explore concepts such as blessing, covenant, and promise, and the bearing each has on a New Testament believers life today. Group members will also explore the Hebrew names of God introduced on the early pages of Scripture.

The Patriarchs gives participants the opportunity to see a perfect and holy God endure in His relationship to man, whether man is at his best or at his weakest. (11 sessions)

### **Mimmi says**

Things you never would have thought of in the bible are in this book! Love, sacrifice, betrayal, fatherless children... She captures evrything, just like if you lived in the time of Jesus!

### **Chrissy says**

I loved learning about the names of God and why that was so incredibly important in Genesis. Great study.

This 10-week Bible study took me 6 months (I did it on my own, intermittently) and virtually every single lesson taught me something I didn't know, and drew me near to God. He indeed has given Beth Moore a gift in that way - the insights and challenges and observations never ceased to inform, enlighten and/or encourage me, and they so very often seemed to pertain to that very day's circumstances. I know that's God's work and not Moore's, but as I said - He has gifted her and used her voice to speak His voice to me through this study as well as the several others I've done by her. The patriarchs and their families have become real people to me, and applications I never would have noticed I now carry with me because of slowing down enough to read these 30-odd chapters of Genesis along with Beth Moore. Highly recommended.

Wow wow wow!!!

This really brought Genesis to life  
I fell in love with all the characters

I have done several of Beth Moore's studies over the years and I've never been disappointed in any of them. When I finished my last study and was looking for another one, I was torn because there were so many available that I wasn't sure which one I wanted to do first. I agonized over it the last weeks of the study I was doing and finally narrowed it down to a couple of studies. In the end, I decided to go with this book on the recommendation of my mom who said it was one of her favorites. I was a bit skeptical about it because most people are familiar with the patriarchal narratives and/or know the stories fairly well so to me it seemed like there wouldn't be much new or that I could relate to but I'd give it a try anyway.

I couldn't have been more wrong about what to expect in this study. Yes, it does go through the lives of each of the patriarchs but it does so in such a way that you really feel like you know these people. She breathes new life into these families until you see them not as one dimensional characters in a narrative like reading a history book but as living, breathing human beings with desires, fears, failings, and strengths. She doesn't gloss over the failures either, she's not afraid to confront head on that some of the actions that are represented are wrong and show a lack of faith or bad decision. She's not afraid to say they're acting like spoiled brats or to give them credit where it's due.

This Bible study really challenges you to see these men as men with their strengths and failings, their glorious moments of faith and fearless trust and their crushing moments of defeat and fear. It brings all new life to these stories and I was surprised that how much I had missed even though I thought I knew these stories well. She digs deep into the narrative and challenges the reader to see what is really happening and make connections across the pages of Genesis that I would have never found on my own. I would highly recommend this workbook to anyone because it meets you on so many places and challenges you.

this is my favorite study. The thing that stood out the most to me was how much they are just like us- keep messing up again and again- and they were God's chosen people. He gave them the covenant and His promises and always fulfilled them no matter how little faith they had.

### **Brenda says**

This was an excellent study of the old patriarchs from the Old Testament...Abraham, Isaac and Jacob. It really helped me to know these men and/or their families. Beth Moore does it again!!

### **Elizabeth Davis says**

I. Finished. It.

It took me almost 6 years to finish.

This seems reminiscent of God finishing his works through Abraham, Isaac, & Jacob.

The study shows its age some, but it's still interesting & relevant.

This study takes you book by book through the lives of the Patriarchs in the old testament. Beth has a wonderful way of taking their lives applicable to us by looking their faults and strengths so we too might walk closer with God. One of my favorite studies by Beth.

Wonderful! If you have 1/2 a chance to be involved with The Patriarchs study...DO IT.

### **Doralyn says**

So amazing! I love how Moore makes the Old Testament so relevant by revealing the background and what things mean. I cannot stress enough how moved I was by this study. Maybe it's just where I am in my life, but it was almost surprising how the situations in which we find the patriarchs provide insight into my current experiences.

### **Keri Fosse says**

Excellent resource for understanding both the Patriarchs of the Christian faith and God Himself. I learned so much from this study and highly highly recommend it!

### **Kristin says**

I love Beth Moore's energy. Her personality really comes through in her writing. In addition, I like how I always learn a little something without the study becoming too deep and academic. In particular, I appreciate how she gives alternate translations of various Hebrew words that help me gain insight into the possible meanings. I also appreciate that she draws on the interpretations of others (scholars) at strategic points. She always helps to see the practical side of the stories, as well. I feel like I walk away with understanding of the past, plus implications to today.

I've studied Jacob before. I've also read The Red Tent. It was good to back up a bit and start at the beginning of the patriarchs.

We split the 10 weeks up, completing one week of study for every three weeks on the calendar. It was a commitment, but it was enjoyable and worth it, especially coupled with the video series (which we got from a local church) and some great women to study with!
