Wood Spirit - A New England Horror Story Johanna Frappier

Sebastian Park, hack ghost hunter, is called to Peachtree, Vermont, to help rid them of a black, aggressive mist that the townspeople believe is a negative entity. When it comes to paranormal investigations, Sebastian is used to being the ringmaster in a circus full of clowns. But when he has the first nightmare and suffers the entity himself, and when he begins to have urges to gnaw on the girl at the local diner, he regrets his career choice and his cross-country trek to the nightmarish, little New England town.

Johanna Frappier is one of those authors who makes me envious with her whip smart originality and fantastic storylines. Her latest novel Wood Spirit is, in my opinion, her best book yet. It's spooky, grizzly and hilarious with a cast of characters so real I'm sure she can't have made them up. This book had me pinned to its pages.

We're introduced to ghostbuster, Sebastian Park, and it's not love at first sight - he's a self-proclaimed womaniser and con-artist. But when he's called to a job in the too-good-to-be-true town of Peachtree, the place works some kind of magic on him, making him question who he is and what he's doing with his life.

If you like your comedy black and your horror left-of-centre, then this is most definitely the novel for you. I give Wood Spirit five black blood-dripping stars.

I have three little words to describe this book...

WOW WOW WOW

I couldn't put it down, literally, I just couldn't.

To be honest, I didn't know what to expect from Wood Spirit as I have read Johanna's two other books (The Fairy Circle and The Fairy Thief), both of which are fantastic but they're written with a different audience in mind - the YA audience. Wood Spirit, on the other hand, is horror and I have to take my hat off to her, this is one helluva horror story. Johanna has proven that she can turn her hand to anything. I've read a few horror books in my time, but it's not my favourite genre (I scare easily!), but after this, I'm tempted to delve further into it. I'd love to read more horror from Johanna and I hope that she's got more in the pipeline.

Wood Spirit scared the pants off of me (well, perhaps not literally, but you get my drift), and prevented me from climbing outta my bed in the middle of the night for fear of the black cloud... but if you wanna know more about the black cloud, you'll have to buy the book. Go on... you know you want to....

On a nitpicking note, this story could have used a better edit-through to pick up a wealth of dropped quotation marks around dialogue, as well as other typos. The EPUB file - I don't know if it did this in other files - also did something really weird for the last fifty pages that made it strange to read.

Aside from that, however... this was a pretty good story. It doesn't quite stand out to me enough to rave about it, but it was engaging and funny, incredibly gross in some parts (but it was a horror story). Being a hard core New England resident, I really liked that aspect of it. Park was an interesting character.

I'm not a fan of stories that bounce between Third and First person, so the few Third Person interludes --

which seemed overall kind of needless to me -- didn't do the story any favors, and I thought that the ending was way too abrupt. I wanted more there.

But otherwise, it was a good story and an easy read if you're looking for a horror story. I was able to read it in one day and never found myself doubting my desire to finish it. So, I'm giving it a 4.

Hea y'all Anne here with my review of Wood Spirit by Johanna Frappier. Let me just remind everyone how much I adore Johanna's Fairy Circle series because it's completely original and unique and I love a new story. Wood Spirit doesn't disappoint, a new and twisted story is housed in this cover. Johanna has created a gory and descriptive horror story that will make you stop and shutter. She has no qualms against writing a scene that literally made me stop and all but gag!! I love that, when a scene is so well described that I can smell the rot, see the missing limbs, and feel the eerie creepy thing lurking in Peachtree woods. But more than that her story is full of fun and smart assed characters! What's better than being in the middle of a disturbing scene and then someone pops off at the mouth breaking all tension? Nothing that's what because it keeps the story fun and amusing to read. A fast read I found with all the humor and jokes going on via the main character Sebastian Park an ego driven, gods gift to women kinda guy. Although arriving in Peachtree he was there to run a hustle and unbeknownst to him learned more about himself in the process. He is a fork tongued sly little devil sneaking his way into panties and dangerous forests alike.

All I can think to say is grab this amazing tale full of icky secrets and full blown smart assery and wittisim!! 5 out of 5 stars for Wood Spirit by Johanna Frappier. GET IT NOW!!

This was another amazing story by Johanna Pontes Frappier! Sebastian Park is a con artist - until he finds out he isn't really a fake. The Spirit in the woods of Peachtree is hungry, and it's contagious! I loved this story - Sebastian's humorous outlook keeps this from scaring the snot out of you - I laughed out loud many times as I went through his story. Would love to read more about this character!

Don't miss out on this... I wouldn't say it if I didn't believe it... and that's a promise!

OMG first thank you for the book Johanna...OMG where to begin!!

This book is hilarious, gory, crazy and hard for me to put down.

It has a witch, a demon, Native American witch doctor and a fraud, sex addicted ghost hunting psychic who doesn't know he is a psychic.

It has sex, drugs (well a tea dealing drug dealer) and a dead rock and roller.

this book made me laugh alot, cringe at the gore a little and love every minute of it. The characters are so well constructed for the story. Just the ping pong playing, drugged up tea addicted mayor with the kind 62 year sex kitten for an assistant and the old lady with the walker and pet crow...ok enough READ THE BOOK...oh, and then go talk to the trees.
