### **Margie says**

Lovely book meant to be given to a special teacher. The words and illustrations are lovely and express the different ways in which teachers bring out the best in their students.

---

### **Ashley Adkins says**

Super sweet and cute book. We bought two for our kids end-of-the-year gift for their teachers. The art is as equally adorable. Great gift for friends, mentors, and coworkers too.

---

### **Marissa Benson says**

1. Summary: Because I Had a Teacher is a story written in honor of any individual (teacher, coach, mentor, etc.) who has inspired another. The book lists various components of a person's life that have been positively impacted due to their "teacher". The main purpose of this picture book is to thank the people who have these various positive impacts on our lives.
2. Review: I am a huge fan of this book. I think it is so important to show appreciation for those whose inspiration and encouragement have changed your life. The illustrations also pair nicely with the innocence and genuine nature that the story possesses. The fact that each page targets its own broad topic allows for individuals to reflect on their own students and make connections based on their own experiences.
3. Connected books: A Letter to my Teacher, Thank You, Mr. Falker  
Both of these books tell the story of a student who was positively impacted by a teacher.
4. Quote: "Because I had a teacher, I have whole new worlds to explore."  
Each quote embodies its own meaning but this one is my favorite. It alludes to the idea that through positive influence, any individual can truly see their capability and the WORLD of opportunities ahead of them.

### **Lauren Waters says**

This would make an adorable teacher gift.

---

### **Alyssa Gudenburr says**

A very sweet book that would be a great gift for a teacher. It is very small so it would be too hard to share during storytime.

---

**Heather says**

LOVE this book!!

---

**Kenson and kirra says**

more like an extra long greeting card than a book

---

**Mary Hamer says**

For any teacher who needs to remember the reasons why we all do what we do. Heartwarming.
