Chasing Change Caroline Lee

Cait Quinn has never understood how some people can do the same thing day in and day out. Doesn't that get boring? Same thing with dating: How is it possible to date the same guy for months if he's just going to be...well, the same guy? Of course, it's not like she's looking for a guy to date; she's got all her many (varied) jobs on the ranch to keep her busy, and she's saving up for her dream adventure.

Archibald St. John is Hollywood's foremost method actor, and that means he spends his life becoming other men. It's what he's famous for, and it's why he's come to the ranch; he needs to find someone to teach him to become his latest character...and Cait, with her detailed knowledge of diverse outdoor adventure activities, is just the person he needs.

In fact, with Archie's ability to change who he is, they seem perfect for each other. But one outdoor adventure too many is going to remind them that Archie has responsibilities he can't just walk away from...

Discover River's End Ranch, a gorgeous "destination" ranch and resort in Riston, Idaho, that is run by the six Weston siblings and their well-meaning, semi-retired parents. Methods actor Archie meets beautiful adventure lady Cait and learns first hand survival tips on McIver Mountain. Caroline Lee weaves a believable mountain setting and opposite attract characters with a twist and turn plot and a satisfying resolution into a delightful adventurous tale. My favorite quotes were: Life is an adventure. A working brain is the BEST tool to survive. Experience the desperation. Only disappointment was my favorite matchmaker was missing, but Big Foot was mentioned.

Archie/method actor and Caitlin/ jack of all out door trades on the ranch
Another great story in this series that is filled with fun, love and Adventure. I enjoyed reading this story that grabbed me and would not let go until the end. The story progressed steadily, has well developed characters with witty dialogue and a fun/adventures developing plot. Their story has a completely satisfying HEA!

Nethanja says

Cait don't want a boring life, she wants adventure. When she is hired to help Archie, who is a method actor, to learn all kind of outdoor activities so he can excel in a film, she is happy to help. But what when they work so good together that for the first time she isn't bored after 2 dates, even worse, she is smitten? And what when Archie thinks he needs to share more adventure but this time with her?
I loved this story, all the adventure in his film history, the teasing, and the way they work so well together makes this a fun story to read.

Change can be a good thing.

I found this episode of RER to be delightful. Good and very well written characters. However, someone was missing. I'll leave that for you to find out.

Marie Bourgery says

Caitlin Quinn is a jack-of-all-trades at River's End Ranch and she loves that her job is not the same day-to-day. Archie St. John hired her to help him learn survival and extreme adventure skills to prepare for a film role. They are both born adventurers and are attracted to each other. Can a girl struggling to earn enough money to fund her next adventure fit in Hollywood with an award winning actor? I love that they both had 2 different colored eyes and were not afraid to show it. Cait's best friend Kate and Archie's actor friend Jack

Raven were funny. I hope they both get their own stories.

Archie and Cait's Story

This sweet love story was a good read with cute banter. These characters were oddballs that just kinda had to fit together. Lol. RER books are always good books.

Dana A Smith says

Chasing Change

Loved Archie and Cait. I really wasn't sure going into the book if I would like it as much as the others in the series. The blurb didn't really grab my attention. I loved it, the characters the whole storyline was wonderful. I wasn't ready for the book to end. I wanted more adventures.

Doni says

I truly enjoyed this book!
It's another great story in the
RER series. This is a heartwarming
tale about Caitlin & Archie.
Cait knows just about every job there
is to do on RER. Wade asks
Cait to be a personal guide for a VIP guest, on outdoor activities.
With the extra pay, Cait is that much
closer to seeing her dream become real.
Archie is looking forward to learning everything he can. It's important for his part. He becomes his character.
But Archie never expected to meet Cait,
his beautiful guide in the middle of Idaho.
A MUST READ FOR EVERYONE!!!

This was such a beautiful story of absolute acceptance! There's no bad story on Rivers End Ranch, but this love story was extra special. I just loved how through learning about one another, Caitlin and Archie found the spark they had been missing. Even in the unexpected face of change, they appreciated, enjoyed, and loved each unconditionally, even with all of their warts!

Sarajane Garten says

So. Much. Fun!

This is the best RER book in quite some time. Fun. Romantic. Fully developed characters I wanted to meet. While I know all RED books have a HEA, the details of this one took me by surprise.

Dorothy Roller says

This was another fantastic story and I loved it all. This is book 57 in the River's End Ranch series and what a story. Caroline Lee can really create fantastic characters but the hero in this book really was over the top in this story. Then she can also create really dramatic endings. Oh, my so much was going on in this story that I couldn't put it down. I really couldn't put it down because I just had to know what was next and I was not disappointed at all.

The heroine in this story was also an amazing character. She had been at the ranch for awhile and really loved everything outdoors and knew how to do every outdoor activity the ranch offered and she was the go to gal for any job outdoors no matter the season. When someone needed time off they asked her to fill in. There was nothing she couldn't do and when the boss called for a special assignment, she was not surprised

and took it without question plus this one paid better than anything she had been called for before.

Anything and everything that could happen outdoors just about did and it all lead to a very romantic ending to this story and very dramatic at that.

I highly recommend this story to everyone and I know you will love this one and won't be able to put it down either.

If you haven't read any other story in this series you should. You get to know all the characters in this wacky town and then when one pops into a story you will know who they are. I recommend this entire series written by several different authors and each story I have read so far are fantastic so they are all worth reading.

Reviewed at Romance Is Ageless

Chasing Change is a slightly change of pace romance for the River's End Ranch. This one is pretty much contained to the main characters, Cait and Archie. Oh, we have a few other characters, their best friends, light mention of the Quinn Valley connection but mostly this is about one unique couple who actually have far more in common than they might think at first meeting.

Cait is bored easily, so her position of Jill of all trades around River's End Ranch fits her perfectly. When she is given the chance to be the personal tour guide for all things River's End Ranch with one guest, at a very hefty pay check, she jumps at the chance. Archie is a method actor who completely immerses himself in a character. He's come to the ranch, incognito, in order to get further into his character... never realizing that he'd be ousted his first day on the ranch. What he discovered is that his guide, Cait, loves constant change as much as he does. That seeing, learning, experiencing new things is a lifestyle addiction that he shares.... and just maybe sharing that passion together is what their future holds.

I loved Cait and Archie, I especially loved the ending of Chasing Change... you'll see. If you're in the mood for a fun Romance then you'll want to pick up this one.
