Come Back to Me

Cindy Stark

Come Back to Me Cindy Stark

She's back in town...

Three years ago, April Sandoval ran away, leaving behind her broken heart. Now, she's adopted a little boy and desperately needs her family's support. Aspen is a small town, and there's no way she'll be able to return without running into Seth, but she's determined her past won't interfere with her future.

He's going to make sure she stays this time...

Seth Moore is still angry with April for vanishing from his life with no way to find her. She believed the words of a jealous conniver which cost them both their hearts. But one look at her, and Seth knows she still holds his heart. He's hell-bent on making her see the truth, so she'll give their love a second chance. But in order to win her forever, he'll have to prove that secrets and lies can't keep them apart.

Lynn Hill says

What a great fast read! I love the way Cindy writes a story. Just makes your heart so happy, but you have to get over a few bumpy roads first. Thanks Cindy!

Tiffinie Helmer says

I loved this book. Cindy Stark had me in tears in the first few pages. So emotional and touching, April and Seth story has got to be one of my favorites. I have read all the books in the Aspen Series and I'm a huge fan of Ms. Starks books. She knows just how to tug on those emotional strings that have me given up sleep to finish her books and waiting impatiently for her next one. Keep them coming!

Keri says

Great series

I love this little town series. It's always fun reading a series like this where we get to meet more and more couples and you begin to feel like you are a part of the town. Seth and April's story held lots of emotions. What a guy Seth was to still be in love with her after 3 years of her running away from him from a lie that was told. Not to mention the twists that happened along the way.

Jacky says

Second Chance Romance

This story wasn't boring, but it didn't have the same type of excitement as the other books in the series.

The outcome of the situation with Danny was kind of obvious.. I couldn't understand how April could believe Jessie knowing that she was jealous of her relationship with Seth, AND that Jessie was known to be a liar.

I had to admire Seth for continuing to pursue what he wanted.

A very quick read about a sweet second chance romance.

couples and you begin to feel like you are a part of the town. Seth and April's story held lots of emotions. What a guy Seth was to still be in love with her after 3 years of her running away from him from a lie that was told. Not to mention the twists that happened along the way.

Debbie DiFiore says

This book broke my heart

I won't give any spoilers but this book sucks. The whole premise sucks and the ending sucks and the beginning sucks and the whole book sucks. It made me cry desperately on a plane and I hate this book. I hate the hero and I hate the heroine for forgiving him. I don't know if I said this before but this book just sucks. I would not recommend to my worst enemy. Ever. Not safe at all for me.

Conny says

Even though I have been a fan of Cindy Stark for some time, I was not familiar with this series, so when I had an opportunity to get this book for free I figured it was a sign and high time to familiarize myself with it. Normally I don't like to jump into a series with #4, because not every Author does a recap if it is needed, but I did not have to worry here, I never felt lost or confused as to what is going on. The characters are complex and interesting, likable and I could identify with them. It was beautifully told and captured me from page one. An emotional rollercoaster but with a happy ending. Now I need to check out the other books in the series.

Nes says

Great for commutes

This was a quick read, a bit angsty due to a debatable "secret" I really didn't like the female lead or get any chemistry between her and her love interest, he was too good to be true, the secret is revealed and voila the story is resolved with a HEA.

Siobhan Muir says

I'm a big fan of Cindy Stark's writing and this tale continues my enjoyment. Children always complicate things, but when you're not sure whose kid it is and when the mother lied to you from the get-go, and does until her dying day...Yeah, things get really complicated. This is a great story about a woman who will do anything for family, and the man who didn't know he had a family until she comes home to him. Great love story. :)

Sarah says

April was devastated three years ago when Jessie her cousin told her Seth her fiancé cheated on her.

April left town to try build her life back together but didn't realise Jessie left too until she get a phone call asking for her help.

April meets her cousin to find she has a two year old son that looks like Seth. Jessie promises Danny isn't Seth's child and adopts him takes him back to Aspen.

Once Seth knows she's back he try's everything to get her back.

I love this story especially the little book who loves trucks and tractors.

Great story. Lovely HEA. Would have liked epilogue.

Kerry says

4.5 stars! I have really enjoyed this series, and I just loved this book! I am a big fan of second chance love stories, and this one just made my heart melt. I adored Seth! Jessie was definitely an interesting "villain"--it is hard not to feel at least some kind of sympathy for the place that she is in right now. A great read overall!

Clancy Metzger says

This was a another good one, but I have to say it was almost the end of the book before I liked April. The little boy, Danny, the parents, the friends - loved them all. Jessie, the cousin, is a great villain cuz you can really hate her. And Seth is so many levels of sweet and sexy. I would take that man any day. But April, she left me feeling like she was perpetually over-reacting and while I didn't dislike her (most of the story), I didn't actually like her either. Not until the last chapter or two. And mostly what I didn't like about her was the way she treated Seth. Irrational took a detour for April and she couldn't find the main road for too long. But, with all that said, I still really liked the book and still love Aspen.

Dawn Pressel says

I'm really on the fence with this one....condom people....Jesse, evil bitch....April, a strong girl but a little immature....Seth, sexy man with limited memory and when the truth came out he seemed shocked April asked for time to think

Book was better then a 3 star but not really a 4....

Kelly Yekel says

This book was a truly great story and well written!

This book was a critique of the damage one can cause from jealousy and hatred. It's amazing to me that love even if in fiction can pull a couple back together, even after the damage caused by a selfish jealous person

Although, however sad; They've found their way back together and got their happily ever after. Love the stories with happy endings.

Bette Hansen says

Another great story in the Aspen series. A second chance story with a real twist. Well written and thoroughly enjoyable. Recommended read.
