## Disavowed Tee O'Fallon

NYPD Detective Dom Carew can't forget the violent way his lover was killed in Afghanistan fifteen years ago. The pain and trauma of her death still haunt him, and since then he hasn't let a woman under his skin. Until one incredible, hot and steamy night with stunning and sassy Daisy Fowler.

Sexy, gorgeous, and hunky doesn't begin to describe Dom Carew, but Daisy's been burned by Dom before. A year ago, he bolted from her bed in the middle of the night without so much as a *gee you were great in the sack, babe*. Never laying eyes on his handsome face again is the plan. If only their paths didn't keep crossing. If only she didn't still find him irresistible as sin.

Seeing Daisy again sets Dom's blood on fire, but he's about to embark on the most dangerous undercover op of his life— infiltrate the Pyramid, an international organization of assassins. Love has no place in his heart or his world, but when the dangers of his job threaten Daisy, he'll destroy anyone in his path to protect her.

Each book in the NYPD Blue & Gold series is a standalone, full-length story that can be enjoyed out of order.

### Dísir says

This is my first Tee O'Fallon read but finding myself cringing and grimacing for most of the book doesn't bode too well. There are times when I can sort of 'ignore' the protagonists and concentrate fully on the suspense and there are others when characters do trump everything else. And when a book—or rather, a main character—annoys you in the first chapter, that just feels like an ominous start.

For 'Disavowed', the latter held true and I found it difficult to get past the idiocy of the male protagonist enough to even enjoy the suspense. My hopes for it getting better waned when it appeared that Dom Carew spoilt it all from the beginning and the journey then on was a torture, at least when it came to the development of the relationship he and Daisy never really had.

I couldn't get past the pure drivel that Dom kept spouting, let alone feel any sympathy for a 'womanising asshole' who, from the very beginning who uses women and leaves them in the middle of the night because of his own self-piteous reasoning that he was no good for anyone after his first and only love died in Afghanistan 15 long years ago.

Oh, boo hoo.

And of course Daisy stayed celibate in this one year and Dom continued going through women, though in his own words, he'd apparently never stopped thinking about her and behaving like he owned her. Adding to the hypocritical attitude is some jealous territorial behaviour that goes into overdrive when Daisy inadvertently gets involved in a case that he's working undercover. That he'd put Daisy in an untenable position by using the excuse of work and his own personal heartbreak to keep her away yet taking every advantage of their sexual chemistry felt beyond unforgivable because she truly deserved better than his cavemannish ways.

Daisy on the other hand, pined a little too much. Though I understood her need to want some belonging, I found myself wishing she'd moved on from Dom as thoroughly as she could have, then flaunting it in his face as much as he used up every excuse in the book to remain an emotional coward. And why, oh why, did Daisy have to justify Dom's behaviour when fifteen years surely must have been long enough even for her to stop making those same excuses for him?

Unfortunately, 'Disavowed' frustrated me to the point where I couldn't read on. It's clearly not the book for me in this case, particularly when I found myself way too annoyed to enjoy anything properly.

I love a good romantic suspense and Tee O'Fallon is an author who knows how to write a good one. She had my heart racing with some twisty ups-and-downs. Still, that was not enough to make me love the story. As much as I wanted to like Dom, I just couldn't and that raised a red flag for me.

Disavowed didn't disappoint in the suspense department, but unfortunately, it fell flat in the romantic one. I didn't believe in their so called *chemistry*. Add to the mix that both characters, the hero and the heroine, frustrated the hell out of me and yeah, I was in trouble.

*And you can't love them all.* But of course these are my feelings-issues and it doesn't mean you are going to feel the same way, right? So if you're looking for a second chance romance with a sizzling dose of suspense, give this book a try.

Flower shop owner Daisy Fowler has got her biggest and best contract yet. A huge prestigious hotel has had a major refit, and Daisy is doing all the floral arrangements for the opening.

Detective Dominick Carew is setting himself up for a dangerous under cover job. He didn't realize how badly he would feel to make himself "disavowed ". For a committed soldier turned cop to be thought of as a bad guy hurts.

Our main characters have a previous connection. One that has wounded our heroine because our hero is scared of his feelings. Our heroine has wanted nothing more than a loving family since she was a child. Abandonment is a major issue for her.

An action packed romantic suspense that is part of a series, but easily read as a stand alone. Lots of danger and emotion. A story that pulls you in from the first page. I thoroughly enjoyed every page.

I have loved this series immensely from the first book and I've got to say, for a newbie, the author knows how to write really great suspense. In fact I enjoyed the previous book so much I couldn't wait to get my hands on this one and find out how the overarching story-line ends. And the author does not disappoint and keeps you turning the pages as quickly as you can.

However, while the suspense was great, the romance fell flat for me. Dom was too annoying with his flip-flopping when it came to Daisy and his general bed-hopping ways. People deal with grief in different ways, but he clearly used his grief as an opportunity to avoid any connections with women, even the one woman who made him feel again after losing a woman he loved so long ago.

Daisy wasn't any better unfortunately. By herself, she had a lot of potential, but paired with a damaged hero like Dom, she struck the wrong cord for me, like they both had too much baggage. Between both of them, I was over the romance very early on in the book, but I stuck around for the rest of it and it was enjoyable. I'm a little let down that I didn't enjoy this book as much as I did the last one, though

If you enjoy an engrossing suspense and a well-written story, then you may want to check this story out.

**For her, it had been real. A love magnetic and all-consuming. The once-in-a-lifetime kind that never dies. No matter how much a person wishes otherwise.**

I truly wish I had the power to compel people to read this series by Tee O'Fallon. It's romantic suspense at its finest, a sexy, edge-of-your-seat series of books that keep you guessing, swooning, angering and falling in love.

*Disavowed* is book three and, hopefully, not the end. Gray and Cassie have a couple more brothers, after all. But even if it is the end of the series, it's a great one to go out on. The over-arching story of The Pyramid is back—and this time, it's Gray's partner (and Cassie's former partner), Dom, who is on the line.

Look, I loved Dom. I know I should have been more annoyed with his flip-flopping, with the way he kept Daisy on a wire, but... I empathized with him. I did, at times, want to give him a shake and tell him to get a move on, but on the whole, I was rooting for him and Daisy to get to their HEA. And as for Daisy? I felt bad for her. She was, perhaps, a little too forgiving, but Ms. O'Fallon wrote it in such a way that it felt like just another facet of her personality. To love so deep.

Besides, the action in *Disavowed* distracted me from any minor concerns I might have had about these characters. There was much going on—and yet it all came together naturally. In fact, even the back and forth, will he/won't he nature of Dom and Daisy's relationship felt, to me, like a natural extension of the suspense, the drama, the action.

Ms. O'Fallon is absolutely a gifted author, one who walks the reader through a story that \*could\* be over-the-top but instead is engaging, captivating, heart-racing and, yes, more than a little bit sexy. I truly do hope that there are more *NYPD Blue & Gold* books yet to come. And if there's not, when then, I'll make do with these ones—and keep trying to encourage y'all to read them too.

**Her heart skipped beat after beat, as if it were somersaulting down a steep ravine, not knowing where the emotional fall would take her. Only one thing was certain.**

*I want to find out.*

Disavowed is one of those books that I started to read and was not sure if I was going to like it at first. Then the BOOM! The book clicked with me and I didn't put it down until I finished reading it. This is book 3 in the *NYPD Blue & Gold* series. This book can be read as a stand alone without any issues if this is the first book you pick up, but if you plan on going back for the first two be warned it does give away spoilers for the other two books. That said, it wasn't anything that would keep me from going back and reading them. Dom is one broken man and man do I love those guys. Daisy was a feisty woman and I really admired her. The book was full of suspense and high intrigue. The one thing that bothered me was at the end of the book. I wont give that tidbit away but I just had a hard time with that. I still enjoyed the book and would recommend it to anyone looking for some seriously sexy suspenseful romance.

#### **3 STARS**

*Nothing was a certainty in life. He'd learned that firsthand, and right at this moment he felt it more than ever before.*

When I first discovered this author with *Burnout*, I was instantly intrigued with this series. I love all things romantic suspense and this author knows how to write some great suspense.

*Disavowed* was definitely a great suspense story. I was riveted to the pages, anxious to see how everything unfolds. Where it lost me, unfortunately, was the romance. It fell completely flat. As much as I wanted to love Dom, his constant back and forth drove me nuts. I love a good tortured hero, but I simply had a hard time buying it here. Dom lost his first love in a terrible attack 15 years ago and since then has had a revolving door of women that he's unable to commit to even an entire night to. Leaving like a thief in the night is his MO and one he's not looking at changing, even for a woman that makes him question everything.

The epilogue that introduces the MC's meeting simply wasn't enough to hook me on their connection and so their constant back and forth that takes place a year later was an exercise in frustration for me. Daisy's celibacy during that year simply served as another irritant. I understood the why's of everything that happened between them, but because I never formed a connection to the couple, it only frustrated me. Dom's irrational jealousy when he sees potential competition for Daisy while still refusing to commit to her drove me nuts. Daisy giving into their "chemistry" so easily every time he came around was an additional irritant when she was so adamant in telling him how much she hates him.

The one solid constant that kept me reading was the suspense plot, which I enjoyed thoroughly.

Will I read other books by this author? Absolutely. She's clearly talented and my issues were personal pet peeves simply with the characters and you can't love them all. But just because I had these issues, doesn't mean you will. So if you're craving some undercover cops, sizzling suspense, and a steamy second chance romance, give it a go and judge for yourself.

Please note I received a copy of DISAVOWED from NetGalley in exchange for an honest review. Thank you to the publisher and author.

Four Stars and here's why:

Tee O'Fallon wrote an engaging story about NYPD detective Dom Carew and Daisy Fowler, a flower shop owner. They're the BFF's of two other characters in a previous book. This book can be read as a stand-alone because I haven't read the previous books in the NYPD Blue and Gold series.

There were elements of this story I thoroughly enjoyed, but then the ending was only okay for me, which is why I gave it four stars instead of five. This is an enemy to lovers story where they had a hook-up a year before, but Dom blows off Daisy because she unlocks his heart after several years of trying to get over losing his girlfriend in an Afghanistan missile attack. Daisy has a lot of trust issues as an orphan and when Dom slips away in the middle of the night after a soul-searching night together, she's crushed. She finally moves on from her life changing hook-up with Dom and starts to date her employee Jack, who drives a truck for her flower shop, but he really works for The Pyramid, an outfit of former military men gone bad – really bad. Jack is using her shop as a cover. Daisy's flower shop has the business contract to outfit with flowers a renovated hotel about to be reopened. Jack and his ex-military buddies plan to kill someone who will attend the hotel's grand opening. Jack is also a former military buddy of Dom's and what ensues is Dom going under cover to join Jack's outfit in order to bring it down before the hit at the hotel can take place.

DISAVOWED is a good romantic suspense story, and if you like hella-hot guys in and out of uniform, you will enjoy this story.

## **Sissy's Romance Book Review says**

'Disavowed' by Tee O'Fallon is the story of Dom Carew and Daisy Fowler.

Dom is a detective who lives and breathes his job. Dom lost a woman he loved in Afghanistan several years ago and never got over it. Dom has hardened his heart to getting involved with a woman again. But Daisy is someone that he is having a hard time fighting his feelings for. About a year ago he gave in to his desire for her and had a one night stand with her and left in the night without a word to her. But now a year later they both tried to avoid each other but their best friends are marrying each other and they're thrown back together for a short period of time.

In addition to being a second chance at love story it was also an exciting drama filled read.

"My honest review is for a special copy I voluntarily read."

I need to be having words with my book friends. Why has no one mentioned this author to me before? I have literally just finished this book, and I feel amped up on all of the adrenaline coursing through my system. What a heart-pounding romantic suspense/crime thriller.

Now, I have to confess that it was the cover that first drew me to the book \*shrugs\* Come on peeps, you all know me a little by now \*smirks\* I'm a sucker for a fine-looking man \*snorts\*, and I apologise for nothing, but I quickly became entangled in the suspense-filled story unfolding between the pages.

Detective Dom Carew is haunted by his time spent in the military and Afghanistan as a serving officer in the elite Delta Force. More importantly, the woman he loved who was so cruelly taken from him. Unable to commit emotionally with a woman since, how can I put this? \*taps chin\* he has become a bit of a playboy (that's putting it politely!). Never making promises he doesn't intend to keep. Only one night with Daisy Fowler rocks him to his very core. Scared by his feelings, he does a very ungentlemanly thing, and runs out on her during the night.

Fast forward a year, and he is about to embark on the most dangerous UC mission of his career. This one is personal, and the stakes are very high indeed. The last thing he needs is for Daisy to appear back in his life, or to become embroiled in his mission. But, fate has already deemed otherwise.

Once bitten, twice shy, as they say – Daisy has learnt her lesson where the very sexy Dom Carew is concerned. Her exuberant exterior hides an emotional pain hidden within, even before Dom stomped all over her heart. She refuses to make herself vulnerable again. Only some things cannot be denied. Maybe there's more to this man than meets the eye? If only she can peel back the layers to reveal his story, for theirs is

*"A love magnetic and all-consuming."*

I loved all the police procedural elements of the story – trying to work out what was going on, and if my theories would pan out or not. Yes, there is a sense of predictability with the story, but this, by no means, detracted from my enjoyment of this book. What's not to love about a sexy cop, and the feisty woman that, finally, brings him to his knees? It's the stuff dreams are made of \*giggles\*

I'm off to download the first two books in the series, and I'm uber-excited about the author's upcoming Federal K-9 romantic suspense series. I need all the words! Yup, I'm greedy like that.

### **Barbara says**

A great suspenseful romance. The author has written a great storyline that will keep you on the edge as well as keep you wondering if the main characters are simply star crossed.

The characters are so down to earth with everyday problems that as a reader I was able to relate to. I just didn't always want to relate. Being a hopeless romantic I wanted their issues to just go poof! However we all know that's not how life goes.

Dom being a special forces war vet and decorated police detective has made it his life's mission to take down the Pyramid; a group of assassins that used to be special forces. To do so he must cut himself off from everything he knows, including Daisy.

Daisy is the girl Dom meets that knocks his socks off. One night was all it took. But his past and a message giving his mission against the Pyramid a go, has him running from her. Which of course leaves Daisy lost and confused and once again afraid to put herself back out there.

This is an amazing book that will keep you glued to the pages. I absolutely loved this book and look forward to reading more from this author. 2 Thumbs Up!!!!

Plot: 3/5

Characterisation: 4/5

Prose: 4/5

How much I enjoyed it: 2/5

This latest offering is the weakest book in the series. The hype generated by introducing the main characters first impressions in the previous book was just that. It falls flat at expectation.

Don't get me wrong, I can stand an a\*\*hole, jerk of a hero who can't seem to let go of his past baggage as well as a sensitive, emotionally wrought but stoic (almost like bipolar) heroine. Hence, my 4/5 rating for characterisation because the characters are fleshed out well. Their motivations and thought process are well written. Problem is pairing them together. Apart from their supposed chemistry and attraction, they don't seem compatible at all. If this was real life, I'd expect them to break up in less than a month. Either that or have a love hate relationship forever.

This being a romantic suspense with assassination plots, infiltrating terrorist/mercenary group and yet the

most drama is between the main characters and as such the plot becomes mediocre...

From Net Galley

Book 3 in this series. Dom is a Defective with a pass. After his lover was killed in the war - hes not let anyone get close. But Daisy may be the One. But when she is in danger from his job- hes ready for a battle. It was an enjoyable book but Chemistry between the main characters seemed to be missing. If you are a fan of the series go ahead and read it. If not its still an okay read. You read it and decide.
