Doctor Knows Best Betty Glenn

For Eve Kline, it was lust at first sight. When she was hired as the secretary at Dr. Carson's family practice, she never expected her every moment would be filled with images of her and the good doctor sweaty and naked in bed...or on an examination table. The mere sight of the man makes her wet. Too wet. Tired and achy from unfulfilled arousal, Eve finally decides to seek professional help to dull her arousal.

Dr. Carson was instantly attracted to his new secretary, but his promise not to mix business with pleasure holds him back from making a move. When Eve asks to take off of work for a doctor's appointment, he can't help but be concerned. What's a doctor to do?

A bit far fetched but definitely HOT!

Rachel says

This is a great short story if you like erotica :)

Mel Bedford says

It was free, but cheesy. Cute erotica short story.

Amy says

Holy Cow!!! This story is HOT!!!! I just wish it was longer.

Christina says

For those of you saying that this book is too short, no story and just sex, then its obvious you've never heard of these short stories. They are really just a short story, you get introduced to a couple characters, you read about who's lustng after whom, or why, what, where, ect., then they have a steamy sex scene. That's it. And mostly, these stories are free. That's how I got mine, from the free erotica list on my kindle. I usually just read these little 20 something page stories, to get in the mood for some lovin.

Adrienne says

Cute but Unrealistic

This is pure drivel if you are looking for a dose of romance set in reality. But if it's fantasy you're after this short little blip is for you.

Funny and sweet this one will have you giggling at the absurdity and blushing at the situation.

Britta says

Eve Kline works in Dr. Chad Carson's doctor office and has been having a huge problem ... she can't help but get aroused when Dr. Carson is around.

Awful, but entertaining. A good read after reading Collision Course!

McKayla says

Paging Dr. McHottie! This is right at the top of my McDreamy, McSteamy fantasy list (helps if you are fan of Grey's Anatomy). Yes it is a short story but HELLO! Sometimes a girl just needs read like this to come along.

Melissa says

Don't want to hurt anyone's feeling BUT....SO BAD! It seemed like it was written by a 6th grader. No real plot or background.....just sex. Not worth it unless all your looking for is a short story with a quick bang!

Imjstgr8 says

Verity says

The lurve doctor cures hs secretary's hypersensitivity (t)issues w/ his megaton hammer, to make her more functional in doing her job. Who doesn't lurve a hands-on boss ?
