Haunted Moon Yasmine Galenorn

"We're the D'Artigo sisters: savvy half-human, half-Fae ex-operatives for the Otherworld Intelligence Agency. My sister Delilah is a two-faced werecat and a Death Maiden. My sister Menolly is a vampire married to a werepuma. And me? I'm Camille, a wicked-good witch with three sexy husbands. I'm a priestess of the Moon Mother, and I'm training under the Queen of Darkness. Unfortunately, playing in the dark means that sometimes you stumble over secrets better left buried..."

There's a new Fae sorcerer in town--Bran, the son of Raven Mother and the Black Unicorn--and I'm the unwilling liaison between him and our new Earthside OIA. With cemeteries being ransacked and spirits being harvested by a sinister, otherworldly force, Aeval sends us to rescue the missing wife of a prominent member of the Fae nobility. Our search leads us to the mysterious Aleksais Psychic Network and, ultimately, to face the Lord of Ghosts where Morio and I must undergo a ritual that will plunge us directly into the world of the dead.

HAUNTED MOON continues delving deeper into the fascinatingly complex world of the D'Artigo sisters. Not being too familiar with this series I was overwhelmed by the sheer number of characters and their complex relationships. Aside from having to glance back at the glossary multiple times I really enjoyed the deliciously dark plot, lush world, and perilous dangers.

Camille is a tough, kick-ass, and extremely loving heroine. Her relationships with her three husbands is a very unique one in paranormal romance. I was endlessly fascinated by their interactions and how Camille's husbands so willingly shared their husbandly duties. It was eye-opening to see such equal love for all three of Camille's husbands and yet she has very different, deep connections with each of them.

After dipping my toe into the Sisters of the Moon series with HAUNTED MOON I am ready to go back and read more about the other D'Artigo sisters and their perspectives on the overarching storyline. I will definitely be picking up AUTUMN WHISPERS, the 14th in the Otherworld/Sisters of the Moon series which comes out September 24, 2013.

Sexual content: multiple graphic sex scenes

My English review

I have not read all the volumes of the series but I've read several ones. Indeed, it was not really difficult to understand or take the story where I left it. I must say that all the volumes follow the same frame, so when we understand where the story is leading, we can enter each volume without any problems.

I have a strange feeling about this series. I think the ideas are very good and at the same time I can't really understand the characters or their problems. So it's true that I'm still a little behind compared to what is happening. I enjoyed the 11th volume and I thought it would be the same with this one. But it is true that it has not really been the case. It is not bad either, even far from that. But ultimately my feeling is still the same. This is an interesting series, but I still do not manage to hang on to whatever happens.

The sisters face many personal problems, but in addition to that, some cemeteries are looted and many spirits disappear without a trace. So this is up to our heroines to understand what is happening. Our young women have evolved a lot through the novels and it's true that it's nice to see them happy and fulfilled although it is sometimes quite difficult. But then they have to deal with many events, new informations are revealed here. Each girl has her own life and tries somehow to help. I enjoyed seeing all the Camille's husbands. They are always explosive and dynamic and it was fun to attend their interactions. The end was also a nice surprise and it's true that I'm still curious to see what will happen now.

If you like the series, this book is for you, because it is in the same vein as the others.

I really enjoyed this installment of the Otherworld series. A lot of action, though not as much running around as previous books. Happy to see Morio finally getting some respect. I always felt he was seen as the lowest on the totem pole of Camille's husbands.

Normally Camille's POV in this series are my favorite, but this one bogged me down. I am thinking that it is time for this series to wrap up. It seems like with each new book the sisters pick up some new magical power to make them stronger, that the sisters pull together with their clan and the greater supernatural community to beat back the big evil. This one was no different.

I'm going to update my review as I read the book!! Why? Because it's fun~

This is retarded, I hate this. I'm gonna keep trying...

Okay, JUST the word kitsune means fox demon/spirit/monster/fairy, saying youkai-kitsune is like saying fox demon demon or fox spirit spirit or fox monster monster or fox fairy fairy... yesh >.< And I knew that already, but I just googled it real quick and you can find the same info in ten seconds...

word choice, ye gods, the word choice!!!!!!!!!!!! <---- added a bang every time I winced internally

The point-of-view character is stupid... and the sex is stupid >.<

Okay I can't take anymore... This is full of Mary Sues and lackluster writing and, honestly, I just don't care what happens next - it's not worth continuing to suffer through this.

I GIVE UP - ABANDONED AT PAGE 14 (thank God)

Strange things are happening all over in the grave yards. More unusual then normal. Camille, Menolly, and Delilah are on the case. Someone powerful is behind the strange happenings as the sisters barely survived with their lives. They learn exactly who they are dealing with. It is Gulakah, Lord of Ghosts. As if the Lord of Ghosts is not enough, they also come face to face with Bran, son of the Raven Mother and Black Unicorn. In order to stop the Lord of Ghosts, Camille and her youkai-kitsune husband, Morio participate in a dangerous ritual that will bring them close as well as thrust them into the world of the dead.

I just love this series. The D'Artigo sisters are some of my favorite characters. Each one separately are good but together they are great. In the Haunted Moon, Camille is the main focus once again. In this book, readers get to see more of Camille and her transformation as a priestess. The sex scenes involving Camille and her husbands are really steamy. I have come to love all of Camille's husbands. I do not have one favorite as they are all unique in their own way and they all mush so well together.

The Lord of Ghosts is not someone that I would want to tangle with. The D'Artigo sisters had a good battle on their hands. At least they got one more seal. Now they almost have them all. The ending was a good one. Haunted Moon will not let fans down!

Darker than others in the series, but very enjoyable.

To start with, I must say I love this author's world. It's deep and fascinating, and an inch-thick Otherworld companion volume, covering the different dimensions and the various Otherworld denizens, could easily be

written. I like the three main characters (especially Menolly) and how they've grown.

Having said that, this is book #13 in the series, and I simply think the series--as well as this reader--is getting tired. As far as I can tell, there's still two or three books to come before the grand finale, and I'm to the point where I want the author to GET ON with it. Let's wrap this thing up. It's perilously close to jumping the shark, if it hasn't already.

To compare, another of my favorite authors is Ann Aguirre. Her Corine Solomon series runs five books, and her Sirantha Jax series stops at six. Neither the characters nor the storyline feels shortchanged; both series are quite satisfying at their shorter lengths. Even Yasmine Galenorn's other series, the Indigo Court novels, are going to wrap up after (I believe) five books.

There's such a thing as flogging a dead/dying horse. This series doesn't deserve that.

I used to like these books, they were good fantasy with good stories about the female paranormal detectives. At least that's what they used to be about. More and more lately they contain more sex than detecting. If I wanted to read Danielle Steel I could go there. Just getting disinterested in the way this series is going. Maybe it's only Camille that is the energizer bunny of the family.

This was a first read book that I won, but it took me a while to get to this review because there are so many books in this series! As in the other books, this book has a unique POV, in this case, it's Camille's turn to once again narrate the course of events. Camille is coming into her magic and she has been practicing often with one of her husbands, Morio. For some reason, I am not a fan of Camille. Is it because she has 3 husbands? Maybe. Also, her magic doesn't always work and she annoyingly is always wearing stilettos and corsets when fighting demon spawn. I mean, let's show a tiny iota of practicality here!

In this story, they are still trying to outsmart Gulakah and his forces, but nothing really epic happens in this book. There are a couple of fights, and a lot more of Camille's menage sex, but other than that, I couldn't really get into this book. Also, my copy seemed buggy as I was always on page 12 of 45 and I found myself starting to skim to get to the end. I did read the next book directly after and it was better in my opinion with much more action.

I like this series but the books are starting to get repetitive. The sisters are repeatedly called out to fight some big bad monster - each book it's a slightly different demon but otherwise the same thing. The sisters and their crew eat a meal (or two), have a nap and some sex and figure out how to defeat the monster. Along the way one of the sisters (whomever is the lead in that particular book) gains new powers so they are actually able to win.

The only real savings grace is that the books are under 300 pages so they are quick reads and the secondary characters are interesting, sometimes more interesting than the sisters.

The D'Artigo sisters are back and facing another ultimate evil. The Fae triple threat are pushing Camille in her training. The cemeteries are being attacked by a mysterious force that is sucking up all the souls and using them as a power source. All the leads are bring the D'Artigos back to the Alekasais Psychic Network. Camilla believes the Lord of the Ghosts is behind it all and she has been accidentally entering his dream world.

This was a fun and exciting addition to the Otherworld series. Lots of action both in and out of the bed. Well in Yasmine Galenorn style not much actually took place in a bed...but I sure you know what I mean.

Camille and her 3 husbands are up against insurmountable odds once again and leaning on the family they built and rebuilding bridges with family lost might just save the day. I have been a huge fan of this series and am looking forward to what adventures lie ahead.

Fangs for the Fantasy says

There's a new front opening in the war against Shadow Wing – cemeteries are being ransacked of ghostly residents, zombies being raised and a new, sinister psychic network has started in the city

Their all too brief holiday is over, it's time for Camille and sisters to get back into the action

This world continues to be huge beyond all measure – we have the massive range of different beings, the fae, the elves, dragons, demons, the wereanimals and vampires and witches and magic users of various stripes. We have the different realms, the threat that the demons represent, the battle on so many levels across so many plains. It's huge, it's vast and every single part of it is used and involved excellently

While, as I've mentioned below, this can lead to some distraction, it also creates a book where everyone lives. Camille and her relationships are really passionate and powerful. They've really done a good job of building a home life in the story along side the massive battles against everything this huge world can throw at them. The characters have also grown a lot since the first book. Ok, a lot of that is in the many new shiny powers they have managed to hoard, but there's also how they grew as people, how they've found their level with their various other characters (though I still hate Camille's relationship with Smoky).

There's also a real sense that they have built something. For a while I thought we were just going to have random monsters every single book without any real sense of progress. But it has become clear that the war isn't just about the spirit seals, but also about the networks and allies that Camille and her sisters are building. The war will come, and it won't simply be a case of who owns the most spirit seals wins. I really wish they'd focus on this far more – the preparation, what the sisters have achieved.

Camille has a very high sex drive. And with her three husbands I'm more than tempted to wave a flag and cheer her passionate sexual agency. She is in charge of her sexuality, her desires, her wishes. She dresses sexily, for herself and she feels not the slightest shame as she lives her life loud and clear.

Which is all nice but dear gods, I was mightily sick of her libido by the end of this book. Anything gets Camille going. Anything. She started meditating? Horny. She takes a bath? Horny. She washes the dishes? Horny. Magic ritual? Horny. Just seen a terrible death of civilians? Needs therapeutic horny time! Honestly if she's not bored by now she should at least be picking up friction burns.

This adds to a general padded feeling of the book which is something we've mentioned over and over again through this series. A lot of the old problems continue – the extremely detailed description and dwelling off every meal plan. But we also get lost in the world building – I get it, this world is huge and, as I said, amazing. But not everything needs mentioning every time. Like if the sisters are fighting zombies, we don't need a brief aside on the many other kinds undead out there. They're not relevant. And oh ye gods enough with the Stand Alone Stuffing. We do not need the same "let me introduce myself" with every book. This is book 13. THIRTEEN. We know who Camille is.
