## Lion To Get Her Lynn Red

Who the hell has time for love? Lion-shifting Laney Langston, Redby Township's assistant librarian, sure doesn't. Between juggling book clubs, story time for the town's cubs, and her increasingly neurotic best friend, she's got just about all she can handle.

The last thing she needs is more drama in her life, but when a half-naked lion is found asleep in the library she feels stirring in places she'd really rather not stir in a public library.

Rip Black is one big, bad lion who is sick of the spotlight. Once he was a firebrand who fought endlessly for shifter rights, but lately this muscled-up alpha is just looking for somewhere to hide. As luck—or fate—would have it, he chose the “S” section of the Redby Public Library to take a nap.

When he wakes up with one supremely irritated Laney hovering above him, Rip realizes in the blink of an eye that everything he's ever wanted is right here in Redby... and he ain't gonna stop until he gets EXACTLY what he wants.

\*\*\*This sexy, steamy, hilarious lion-shifter romance is the crossover between Jamesburg and Grayslake that you've always wanted...and now it's gonna make you ROAR!\*\*\*

# From Reader Review Lion To Get Her for online ebook

## Brandy Green says

### Cute but confused

Izzy and Erik from Jamesburg make brief appearances in this quirky story.

The main characters, Laney and Rip, are very confused about their sudden and strong feelings for each other. The writer stressed so much on their confusion and hormonal highs and lows that I felt confused and stressed too, just wanting the story to end already. The rest of the Jamesburg series is much better.

---

## Gwendolyn Thaggard says

I received this ARC in exchange for an honest review. The book opens up with a meeting between Eric Danniken (Jamesburg Alpha) and Reid Bennet (former Redby Alpha) discussing a shifter decency policy due to humans invading their towns and lifestyle. Laney Langston is a librarian and lion shifter in the small town of Redby. Rip Black is an activist of shifter rights and lion shifter. He has come to Redby to escape the public life and political strain of his career. He spots Laney in the library and he knows she is what he has been waiting for. The next week, just before kiddie time, Laney hears a noise in the library-sounds like someone is snoring. Uh-oh. You don't fall asleep in a library, just don't do it. So, when Laney goes to investigate the snoring she finds a sleeping lion in the stacks. Not only is the person in their animal form, he is also moaning and mumbling in his sleep, so not appropriate, not in front of the children... Laney wakes Rip up and tries to read him the riot act for falling asleep. But, she doesn't quite pull it off because she is too busy drooling over the man. Rip manages to slip a note in Laney's pocket on his way out (it's a love note) which then starts a very odd race toward love. I enjoyed the book, but got confused about who was who, when Laney was talking to her bff Elaine.

---

## Monica says

I have to admit...this was my least favorite of the Grayslake spin-off and I've read them all. I've read Izzy and Erik's story which I loved from Lynn Red's Jamesburg shifter series. So, having them in the book was cool. Seeing a bit of Reid was even good. Where it went wrong for me is Laney and Rip. Honestly, I had no idea who the guy was. Gilligan the guitar guy was more impressive than these 2 MC's. There seemed to not be much about Rip other than his views about fellow shifters. That's all we really know about him. I didn't feel any romance between the 2, a smidge of lust but not really. Laney's inner thoughts were nothing but confusing. I couldn't make sense of what she was saying most of the time. We don't know anything about her either other than she's a librarian. Her co-worker Elaine was odd. I didn't get what she was about. I dunno I honestly felt this was a mess and I skipped a chapter or 2 around the end because I wanted it to be over. Sorry...just didn't make sense. I think development was a big one. I think it's the smaller details that didn't make sense and needed to be expanded. We need background information on characters so we can know them a little. Not a lot but just a little. We knew remotely nothing. I also wanted to know more about these new laws and that wasn't explained either. I also think inner dialogue posed a big problem for me because it was confusing the heck out of me! I can't recommend this one. I see a lot liked it and that's cool, but a couple

of us were confused lol.

### **Beauty says**

#### **Not into it**

I just couldn't follow this story at all. There isn't any character building and I feel its quite a confusing story.

---

### **Maura says**

Laney Langston is a lion-shifter librarian (love the alliteration!) and she encounters fellow lion-shifter, Rip Black while he's napping in the library. He reveals that he's sort of been stalking her and tries to remain a mystery, but she soon learns that he's actually the guy who has been spouting off his philosophical ideas about how shifters should live and become infamous for it. Laney can't believe he's attracted to her, but Rip is determined to show her he means business. He even risks his life to prove to her that he's serious about having a relationship with her.

Something didn't work in this story and it's hard to pinpoint exactly what. I think a great deal of it had to do with feeling like I never learned who the MCs actually were. Rip was pretty much a mystery and I couldn't figure why he fell in love with Laney...he says he loved her smile. And he claims he's in love with her before he's even spoken to her. Laney is just as much a mystery. We get in to her head a bit more, but it doesn't seem to reveal much. For example, we can clearly see that she has insecurities and for that reason doesn't trust Rip and his intentions. However, the reader never has any idea where those insecurities come from. Nor is there any valid explanation for why she suddenly gets over them. So, as a result, I couldn't connect to either of these characters and they fell in love so fast and with so little interaction that I didn't buy into their romance at all.

---

### **Nancy Bodie says**

#### **Good story.**

This was well written and short, yet a bit of a complex storyline. This was not one that you just flip through you need to pay attention to keep things straight at least I had to. Most of the Kindle World books are quick fun reads. This is that with another layer of complexity added. Highly recommend this book when you want one a bit more engaging.

Title: LION TO GET HER

Series: Grayslake More than Mated

Jamesburg Shifters, Grayslake World Story

Destination: Book 8, 124 Pages,

Author: Lynn Red  
Reviewer: Ingrid Stephanie Jordan  
Genre: #PNR #LionShifter #Werewolf  
My Score: 4 Stars ????

■?■?■?■?■?■?■?■?■?■?■?■?■

As you can see you this is but it from Lynn Red, I'm guessing the books before this were Jamesburg Shifters and we are crossing over to Grayslake Shifters. This book is true to form of Lynn's way of writing. In fact I love the way she writes and of course she has a sense of humor I love, besides everyone deserves a good laugh.

Laney Langston lives, works in a small town called Redby Township in Georgia. Being a lioness shifter plus the librarian was her life. Laney gave up on finding anyone special especially with her looks yep big-n-beautiful that was her, consequently all her time and energy went to the library and the children. Even if there was someone she had no time. Rip Black is a Lion Shifter who has some radical views on the rights of shifter, has had so much publicity, he has no peace. The more he advocates for shifters, the more popular he becomes the more Papparazzi follow him. As if that's not bad enough he has had assassination attempts, so he decides to lay low for a while and ends up in Redby. He knew he might be hiding in this small town but he just found his mate. I was gifted this ARC for an honest and truthful review.

---

## **Cari says**

### **Not aligned with Grayslake**

Reid Bennett (but spelled with only one "t") and Redby are the only things related to the Grayslake series. She obviously didn't read or talk with anyone. Boring storyline. Tempted to give only one star, but the books that I don't finish get one star.

---

## **L M says**

The same crazy couple from book one of Jamesburg Shifters are in this.  
The only Grayslake connection is Reid and the town of Redby.  
Part way in I realised why I don't read this authors craziness, it is just not for me.

---

## **Naomi says**

Incredibly disappointing...the book is filled with bizarre ramblings such as "like a homeless worm trying to escape an oven" and that's one of the better examples. No character development and feels like it was written with no plot in mind...definitely do NOT recommend!

---

## **Ana says**

I was so happy to see Erik and Izzy again!! And if this means we'll be seeing more of the Jamesburg crazies, together with the Redby nuts yipeeee! They go to Redby to meet with the Liason between their two towns and then take a tour to Miami! A Werewolf with a sunburn, I love it!

I laughed so hard it isn't funny, now that's the Lynn Red I'm used to reading, although all of her stuff is great, I just love her craziness, it is so refreshing to sit down and read something that not only pulls at your heart strings and other parts below, but makes you laugh so much and remember days gone by.

Laney a lioness has given up on ever finding a man that can put up with her BBW and her mood swings, not to mention they have to be liked by her weird and flacky BBF Elaine. She just spends her days at the Library and home. But when she finds a Lion sleeping and snoring no less in the Stephen King section, her life takes a turn she never expected.

Rip Black is a lion shifter known all over the country for his radical views on the rights of shifters all around the country. But he is tired of all the publicity, Papparatzis and assassination attempts, so he decides to run away from it all and winds up in Redby. Little does he suspect that a certain Librarian is about to change his views on life.

This is a more tempered version of Jamesburg, but crazy and wild just the same, I love it!

---

## **Tauri says**

This story is just so all over the place that I have no idea what the author wanted to write about. The Rip character is a stalker that sexually harrassed Laney. He has some political issues that are confusing to explain and that storyline is incredibly poorly written. Laney also has some emotional problems that I still don't know anything about. Nothing written made any sense whatsoever.

The begining of their "relationship" is non-existant, there is no start, middle or anything. Just a lot of confusing meetings that are based on non-sensical ramblings of both characters, some humping and poof, there's love, for some reason.

---

## **MyzanM says**

I never really figured out the MC's. I found Laney's inner dialogue tedious and hard to follow at times. I must say I enjoyed Laney's fellow librarians much more than the main characters.

The story didn't take off like I expected, not even in the action scenes.

There was a bit of romance even if I would have liked a bit more steam and perhaps a more clear reason as to why she (and he) actually fell in love.

That said, I think the story was ok and an easy read. Eric and Izzy intrigued me a bit and I might pick up their story in the future.

---

## **Jody says**

Slow.

---

## **Cassandra says**

My Thoughts - 4 out of 5 Unicorns - I really liked it!!

\*\*\*Received the ebook for an honest review

The cover is fierce. My favorite shifter covers always have both sides of the shifter and cats are my fav!

This fits into the Jamesburg series and the Grayslake kindle world. You can read this standalone and enjoy it, but it may help if you know a certain wolf shifter and his shenanigans by reading the other Jamesburg books. I'm bad because I read this over a month ago, but then all heck broke loose and I was side tracked.

This has Lynn Red's usual quirky characters which I find unique and fun to read. I always have some laughs reading her stories. Laney and Rip are no exceptions. I also loved the cubs in the library :)

I recommend this book to all of Lynn's fans especially if you love the Jamesburg shifter series.
