(stejná recenze u každého dílu)

P?kná a roztomilá kresba. Musím kresbu opravdu vynachválit, protože byla opravdu úžasná, jelikož i u sourozenc?, kte?í normáln? vypadají velmi podobn?, byly detaily obli?ej? tak dob?e nakresleny, že od sebe byli odlišní a p?esto si zachovali podobnost. Vím, že to nedává smysl. :D Líp to vysv?tlit nedokážu.

Vážn? by m? zajímalo, co bylo s tou celou královskou rodinou. Každý ?len byl zvláštní a úpln? v jiném sm?ru. To mi ale zas tak nevadilo, protože to bylo pom?rn? vtipné.

Princ Will a miss Melouny tvo?ili hrozn? roztomilou?ký pár. I když se mi nelíbilo, jakým zp?sobem dostal Will poprvé Miyako do postele. Za to jsem na n?j byla opravdu naštvaná a Miyako jsem litovala.

Obálky vypadají p?kn?, akorát by na nich nemuselo být takov? sv?tlých prvk?, které pak splývají s pozadím, kde se nachází nadpis.

### Charmaine (CharmySketches) says

I don't think I've ever disliked the main couple in a manga this much before. I felt a lot of sympathy toward Miyako's Mother, all she wants is peace of mind that someone will keep the Sakuragawa ryokan going for future generations, yet her family members all seem to be extraordinarily selfish. I can see how Mrs. Sakuragawa is also being selfish but, considering the Ryokan has been in her family for a very long time, and the fact that she can't even depend on her husband to help out (he barely raised Miyako at all), I can understand why she would hope her daughter would accept her inheritance. In the end it seems that none of the characters in this story can empathize with each other and thus just as her Mother said in chapter 18; Miyako is leaving with a man that promises her nothing. Why? Because he's a "hot, foreign, prince" that doesn't even want to have children with her. All that Miyako and Will offer each other are fickle feelings and those are fleeting and honestly, there's just nothing appealing about their relationship to me. The character's "Love" seems very hollow, and that's not a positive thing considering this is supposed to me a romance manga. I'm really happy that after the next volume I'll be done with this series.

Series Review: This manga is a very cute and funny series that makes a quick and light read. The plot is not very original and often cliche but entertaining none the less. The characters are likable and often humorous. I recommend this manga for older readers as it has mature moments and those looking for a light read.

I really think the novel speaks volumes (hehe pun) for itself.

Chapter 16 sex scene (actual dialogue):

*(After she crawled naked into his bed, in the middle of the act)*

Miyako (heroine): Hey, no . . . No, not like that!

Will (prince): Shut up! I won't hurt you. Stop struggling.

Well, at least we get Miyako thinking to herself that she enjoyed it after the fact. Maybe this is actually an S&M kind of relationship without the whips and such. This is the first clear indication of that, though.

As the volume continues, Miyako faces the decision of what kind of future she is going to choose. Will she face the challenges of choosing to be with Will? Will she decide to finally take up her mother on the inheritance of the family hotel (hahaha like that's going to happen, silly plot). She decides she's finally putting her foot down . . . because of Will. Because he's the only thing that can force her to finally have some sort of backbone with the demands of other people (besides Will, of course).

One thing I can't understand, though, is why she has to get so many jobs after she chooses Will. Like, I understand that she has to afford her apartment and all, but you'd think Will being a prince and all would help support a bit, especially since she has no free time for him due to all her jobs. Like, is her pride really so much that she wouldn't even accept help to eliminate at least one of her many jobs? You can get financial help without being a golddigger. But maybe it's a culture difference instead of just dumb characters. I don't know.

One more volume. Will Miyako gain some needed self-respect? Will the prince acknowledge his jealous, borderline abusive behavior and reform into a proper prince? Probably not, but we gotta see it to the end!
