HE HAD IT ALL BUT ALWAYS WANTED MORE...

Lucas Merriweather grew up rich, spoiled, and entitled. He thrives on pleasure in his personal pursuits. But with his father's death, he's suddenly thrust into the role of family patriarch and CEO of their vast global holdings. When his estranged grandfather dies, Lucas learns that—shortly before his death—the elderly man married his young, sexy housekeeper and left her ten million dollars. Lucas is positive the woman is a con artist and thief, and he's determined to get back the money she stole. He'll do whatever it takes to win in the end.

SHE KNEW WHAT SHE WANTED AND JUST HOW TO GET IT...

Faith Benjamin takes in strays—people, pets, kids. Growing up an orphan, she understands the importance of loyalty and connection. When she bonds, it's forever. As she begins working for aged, dying, Harold Merriweather, he proposes marriage, but the union comes with more than a small fortune. If she accepts the money, she accepts the Merriweather family secrets too.

Her decision to wed puts her on a collision course with Lucas who's quickly intrigued. Is she the gold digger he expected? Or is she someone else entirely? He can only think of one way to strip away her layers and get to the truth. But when attraction is the bait and lust the fuel, seduction is the only game to play. And Faith is a master.

Lucas may have finally met his match.

Loved this book - love the twists and turns. Looking forward to the second one about dustin as he wasn't nice in this one so can't wait to see who manages to tame him!

### Anne OK says

99-cent Kindle purchase

This one was a real soap opera! But I must admit I enjoyed reading every page. A wealthy family with so many secrets among them and a grandfather who had his own plans for mending some of the major problems. Another short, quick, easy read.

This story was more than I expected. I thought it would just be about a man or woman trying to get the other to have sex but I was pleasantly surprised. Lucas and Faith come together because she has inherited ten million dollars from his grandfather and the family wants the money returned. They are the type that never have enough money. Harold, Faith's husband and Lucas' grandfather made her his heir because he felt his grandson would be a perfect fit. In the end they do come together after family interference on both sides

### Tropical Sorbet says

Great book but too short. So much more of the plot to explore.

I borrowed this book from Bookie so thank you. I thought that is was a cute book. It wasn't very long so that was a nice change for me. I was impressed with the Man characters and they totally had each others back (well most of them). It was a quick read and something that ketp my interest the whole time.

The Romantic Times hit the nail on the head when they dubbed Cheryl Holt the “Best Storyteller of the Year” and proof of that claim can easily be found in her charming new novella “Seduce Me”.

Typically my area of reading interest remains firmly in the realm of historical romance so when I was given a copy of this story to read, I was a bit hesitant. That hesitancy became non-existent before the end of the first paragraph. The world around me literally fell away for the next two hours as I eagerly thumbed through the pages of Lucas and Faith’s journey from unknown adversaries to playful lovers, friends and ultimately the realization that they were meant for each other. BLISS!

I am now officially a fan of Cheryl Holt’s talent and plan on stocking my ever growing shelves of books with titles from her library as soon as possible.

This was a free book on Amazon. Actually it has all three novellas under the title Marry Me. Normally I don't like novellas. I started reading this while doing cardio at the gym. I didn't want to stop. This is very good for a short story. I plan to read the rest of them.
