**To save two friends, the Executioner sets his sights on Music City**

Mack Bolan has spent a lifetime crisscrossing the country, taking the Mafia apart piece by piece. Occasionally, this solitary crusader has found allies—strong-willed fighters who hate the Mafia just as much as he does but who prefer to do battle inside the law. Lately, several of them have joined up with the Sensitive Operations Group, a top-secret task force devoted to unconventional crime fighting. Bolan never considered joining the team, but when two of his oldest friends are captured by the mob, the Executioner will fight alongside Uncle Sam to get them back.

Carl Lyons and Smiley Dublin were last seen in Nashville, the country music capital and stronghold for the Dixie Mafia. In Music City, Bolan will teach the mob to play a different tune—a song of mayhem, violence, destruction and death.

These books are like candy. Once again, Pendleton's writing was completely engaging and the flow moved like warm butter over toast. As far as the writing of this story goes, it is 5-star caliber. I'm giving it 3-stars in comparison to the total series.

After the craziness that was #31 Arizona Ambush, Mack is asked by the Department of Justice bigwig, Hal Brognola, to help set up a heroin distributor for his federal task force to take down. Soon after we find out that Tommy Anders and Toby Ranger are leading the federal side of the operation. This is the face-palm side of the story; once again, Smiley Dublin and Carl Lyons have been captured by the mob. *Oh no!!*

It is still an interesting story-line (overused, but enjoyable.) It just surprises me how the Fed's SOG (Special Operations Group) can't complete a mission without one of their members (Smiley Dublin) always getting captured. Another member of their team once got captured, but she was turned into a turkey (tortured and left barely alive) in book #19. Toby Ranger, like always, is super annoying. Carl Lyons should have stuck with LAPD where he could beat the crap out of people, but now he's always getting the crap beat out of him by Mafia thugs.

However, despite its overuse, this story-line is a fun follow, but the action is pretty soft in this chapter of the bigger story. There are only six books left in Don Pendleton's portion of this character's story, and in the end, Hal makes Bolan a very tempting offer. I look forward to reading the final six.

A good read. This series is very good. You can see the build up to Stony Man here. Recommended!

An excellent men's adventure series from the 60s, 70's and 80's. The first 38 books are outstanding but then

the series is taken over by a bunch of new writers writing under the name of the original creator and they take the series into a new direction I did not care for. The first 38 books are very recommended

This is the first Don Pendleton EXECUTIONER that I've read and I have to admit I wasn't blown away. The writing is cold, the dialogue tough to follow, and the attempts at humor leaden. While the DESTROYER series feels like you can pick up a book from anywhere in the run and get up to speed, this seems weighted down by its relation to the larger series arc. Frankly, I liked the ghost written ICE COLD KILL (EXECUTIONER #70) much more. The first two-thirds of TENNESSEE SMASH was slow going, but at least Pendleton picks up the pace a bit for the anti-climactic finale. I have four more Pendelton books in the 30s to read (only because #38 was mentioned in a recent DEAD MAN book) and I can't say I'm really itching to get to them. Maybe I'll chill out with a SHARPSHOOTER and another DESTROYER before I move on to MONDAY'S MOB (#33).

Another Pendleton adventure that just crackles like a Kirby drawing. Bolan is in original form and taking down the Mafia like a force of nature. What makes it stand out is that Hal Brognola makes the first offer to Mack that eventually leads to him becoming a one man War on Terror. Good stuff, read it and be manlier for the experience.
