The Pursuit of Lies Debra Burroughs

The 4th book in the Paradise Valley Mystery series, small town private eye Emily Parker's world is flipped upside down when the man she loves is accused of murdering a female Assistant District Attorney. The police believe he was having an affair with the ADA and murdered her to keep her quiet when she threatened to go public with their relationship.

With the District Attorney seeking the death penalty, Emily must fight to prove her man innocent before the police and the press poison the jury pool and he's sent to Death Row. With the help of her close circle of friends, she pursues leads and suspects, at the same time struggling against her own doubts and suspicions. Sensual and suspenseful, you're in for an entertaining read!

The Paradise Valley Mysteries: The Scent of Lies: Book 1, The Heart of Lies: Book 2, The Chain of Lies: Book 3, The Pursuit of Lies: Book 4 (Most enjoyable if read in order.)

Great read

I love the suspense from this series of her books. They really hold my interest and I don't want to stop reading. Looking forward to the next book.

This book wove a tale of deception. I kept waffling while reading trying to decide if one of the main characters, Colin, was lying or being honest. I kept looking for signs and flaws in his story. I couldn't decide to root for his relationship with Emily or to yell and scream that she should get out while she can.

The story line had twists and turns that kept me twisting and turning. I like the book. I will read more of this author's works.

Richard A. Wolfenden says

Is Colin another mistake?

Ladies, if you have ever questioned your boyfriend's past, then this story will strike a cord within your heart and mind. Love shouldn't cloud one's judgement, but adversity shouldn't cause one to abandon one's love. Read this story and find out how the heroine resolves this very problem!

Michelle says

Good book

You people should just read this book yourselves and write your own review on this novel yourself and I really enjoyed reading this book very much so. Shelley MA

Marsha Graham says

Very well-crafted, Most characters well-developed. Mystery is extremely well done.

Mary E Morris says

Yep another great one

I just love this series from this author. She captures your attention from the first page. You don't want to do anything but read till the final page. I can't get any house work done but can't wait for the next one.

In this, the 4th book in this series, Emily must use all of her skills and brains to find out who murdered the ADA. Whoever murdered her, has gone to A LOT of trouble to put the blame on Colin. He finds himself arrested for the murder, and the District Attorney is out for blood!! He, Emily and their friends have 4 weeks until trial, to prove his innocence.

I found myself not able to put this book down. With each book, they just continue to get better.

I enjoy reading how Emily and all her friends come together to support each other. I also was glad that Peter made his way back into this book as well.

Pretty good!

Pretty simple. Liked it - will read the next! I like their relationship - except for her questioning his innocence!

Maureen Hetzel says

3.5 rating as we watch a private investigator and her friends work to solve a murder for which her new fiancé is accused...with the evidence mounting that he must have done it with videos, murder weapon, DNA found to Implicate him. How do they prove his innocence and who would hate him so much to create such a web of damaging evidence. A fun read but a bit too much romance mixed in with the mystery for my preference.

Meg says

It's been awhile since I read the last one in this series. I enjoyed getting back to the characters. Good mystery, too.

Sheila says

Sassy small-town private-eye Emily Parker races to solve a scandalous murder. Her world is ripped apart when the man she loves, the town's hunky police detective, is arrested, accused of murdering a female Assistant District Attorney with whom the police believe he was having an affair. The D.A. is pushing for the death penalty. With the help of her close circle of friends, Emily is in for the fight of her life!

Okay, so this is book four, and I guess I am just over it. Emily Parker is at it again. She's off and running to catch a killer, but this time she is trying to save the life of her fiance. This series started off pretty well, but it has become juvenile in nature. These are grown women in their 30s who constantly refer to themselves as girls. Comments made in the book mention that the 'gang' will all help save Colin's life. I expected the characters to grab some Scooby snacks and pile into the mystery machine. It was crazy. In addition, Emily took cooking classes from her friend (at one point before the series began) who is a caterer, but Emily hasn't managed to learn how to cook anything. There are constant comments about her lack of cooking skills. Come on. Is she an idiot? I am so glad I didn't have to pay for this book.

This might just be my favorite one in the series! Pursuit of Lies see's Colin - Emily's now fiance being accused of murder!

All the evidence points to him - and the evidence is substantial at best - I had no idea how Emily would be able to help prove his innocence in this one!

My heart was going, no surely Colin wouldn't do that to Emily - they are great together, but another part of me was wondering if Debra was taking a dark turn with the series and their relationship.

This one had twists and turns that I wasn't able to predict (unlike the previous books) and I loved it!

Did Colin murder the ADA? Do they manage to prove his innocence? You will have to read it to find out!

I think I would like to read one more book by this author before deciding if the series is worth reading them all. I like the people, they seem like real individuals. I just think the story was weak.

Kathy says

The heart-fluttering romance and suspense continues in this 4th book of the series! Debra Burroughs has a real talent for bringing realism and heart pounding romance and suspense into her stories that will keep you turning the page to see what happens next!! Loved, loved, loved it!

Connie says

A must read mystery series. I felt like I was right there as I read this series. Loved the characters, and the strong willed nature of the main character. One of my favorites for sure.
