**Wild Irish Soul** Tricia O'Malley

Love was never her strong suit.

Aislinn is used to living life on her terms. As an artist with an extra-sensory gift, she allows her moods, and those of the natural world, to inspire her paintings for her gallery set in small town Grace's Cove. Running her business as she pleases, Aislinn has danced around serious commitments her whole life.

When Dr. Baird Delaney moves his psychiatry practice to town and stops by her shop to pick up some prints for his office, Aislinn's world tilts. Irresistibly drawn to his presence, yet convinced that the uptight doctor is a poor match for her free-flowing artistic soul, Aislinn is torn. Both Aislinn and Baird will have to suspend their beliefs as they tumble headfirst into a messy, unrepentant love that challenges both to accept each other unequivocally.

Wild Irish Soul is a stand alone novel and book 4 of the Mystic Cove Series.

I have never been one for romance novels. But Tricia O'Malley does a wonderful job of combining fantasy and romance. This novel focus' on Aislinn and her abilities, the introduction of her love interest Baird bring the perfect balance of fantasy and logic with just the perfect dash of the typical writing that is expected in a romance novel. Very excited to read the rest of this series.

Third in this great series about a magical village and the descents of Grace O'Malley- women who have been touched by and given special gifts and the men who love them. Mystical and romantic

I really liked the relationship between Aislinn and Morgan. I just happened to be more interested in Aislinn's work and how she ran her business in general.

Aislinn and Baird weren't a bad match or anything, but I find myself more on Aislinn's side even if a dead Grace O'Malley is cheering them on. Baird was kind of an ass and I saw the big uh-oh a mile away, especially when Aislinn was upfront in the beginning. All of their relationships move too fast for me in this series but I appreciate that this was a sideways approach.

It always amazes me when an author can make me laugh on one page and have tears rolling down my face on the next. This series of stories set in Ireland really pull the heartstrings. A beautiful story.

#### **Do You Believe in Magic?**

Can an artist living on pure emotion and a mystical gift find love with a psychiatrist who believes there is a scientific explanation for everything? That is the dilemma facing Aislinn O'Brien and Dr. Baird Delaney. New to the village of Grace's Cove, the good doctor realizes there is something very different about this place. When he meets the artistic Aislinn, their attraction is undeniable. But bizarre encounters and events that defy the laws of science make him doubt Aislinn and the secrets she reveals to him. Can he accept her for who she is or will he turn his back on the woman he loves?

This, for me, was the most emotional book in the series so far. The characters are so well drawn and the connections they share are so well defined, it make you want to visit this magical place again and again. I loved it!

How to review a book in a series of books that are each outstanding? Tricia O'Malley pens the words that opens the world of mystic Ireland to her readers.

Each book explores the life and emotions of a different descendant of the great Irish pirate, Grace O'Malley. Each one is gifted with a special mystical power - empath, mind reader, healer, telekinesis, all powers of the O'Malley bloodline. Each one is both a gift and a curse that they must learn to live with. Each one handles it differently, finding her way in the world of romance and life in general.

This is one of the best series I have ever read. As one reads, one laughs, cries, gets frustrated, and feels all the emotions that the author so expertly conveys.

Wild Irish Soul is book three in the Mystic Cove series by Tricia O'Malley. This delightful series takes place in Ireland where magic is possible. It is a great series about the descendants of Grace O'Malley, pirate and mystic being. It brings the tales of Ireland to life.

Keelin Burke had come to Ireland to find out about her Father and in the process, found she had a half-brother and half-sister. They had known of her existence; but she didn't know of theirs. She made headway with Colin when she saved his son; but now needed to deal with Aislinn.

Aislinn Burke was an artist. She could feel the moods of the colors in nature and transfer those onto canvas. She had started a small tourist store in Grace's Cove and it was doing fair. She wasn't much of a business woman as she closed when she wanted to paint. Her life was content until a psychiatrist decided to move his office to Grace's Cove and close to her store. Baird was one who looked at the facts behind everything and didn't take anything at face value. How would he take it when Aislinn told him of her powers? Would he stay or would he run or would he do something entirely different?

I think this was my favorite in this series, at least so far. On to the next one !

### **Lynn Geiter says**

I have to say that I absolutely adore this series. Being an Irish American, I have dreamed of moving to Ireland and living the rest of my life in a small village such as the one in this series. Being Irish, I have a gift for a bit of the blarney, I easily accept magic and the unexplainable as second nature so any stories with it, I thoroughly enjoy. If the storline has a basis in fact or lore, even better. If you love all things Irish, if you accept the unexplained or if you just love a good love story, this series has it all for you. I believe you will be as hooked as I am, right from Book 1, page 1.

Couldn't resist listening to this so soon! I wanted to wait out, but the ending of the last had me curious! A new hot doctor in town? Eeeerrrrr. YES!

But yes, this story follows Aislinn (which I love that name btw) who is Keelin's half-sister (love her name too) and her power is being able to see people's feelings and auras of the world. She is arty and a free spirit. I adored her. She is who I wish I could be. Dr Yummy (as Cait calls him) aka Baird has come to town to open his new practice. He is a psychologist and is drawn to Aislinn and her to him. Things happen pretty quickly. They have the lust down-pat, but the love? THAT is a whole different can of worms.

This worked out well. It seemed to really fit them. Baird is a man of science and Aislinn is a free-spirit who lives in a town of magic. So they clash A LOT. I did get so annoyed with Baird but what do you expect? He isn't going to believe in the magic right away. There was one point when I feel Aislinn forgave him too quickly. I would've been SO SO hurt. BUT true love is about forgiveness. I guess I am a bitter bird.

I enjoyed this journey as much as Keelin's. I had no real issue overall. I love Aislinn. I love the town. I liked Baird even though there was a moment when I was really mad at him. Uncool bro!!!! \*shakes fist\* This is such a fun series!

The narrator was the same as the last one and I adored her. I think she does the rest of the series as well so I am excited.

In the end, I'll stamp this with 5 stars. I just loved this book. I am in love with this series overall. There are some books left to read/listen and I am excited!
