Fundamentals of Corporate Finance

Richard A. Brealey , Stewart C. Myers , Alan J. Marcus

Fundamentals of Corporate Finance Richard A. Brealey , Stewart C. Myers , Alan J. Marcus

Fundamentals of Corporate Finance , by Brealey, Myers and Marcus, provides students with a solid framework of theory and application to use well after they complete the course. This author team is known for their outstanding research, teaching efforts, and world-renowned finance textbooks, so it's no surprise that they provide clear exposition of difficult material without sacrificing up-to-date, technically correct treatments. And with the Ninth Edition, McGraw-Hill's Connect(R) empowers students by continually adapting to deliver precisely what they need, when they need it, and how they need it, so your class time is more engaging and effective.

Landon says

The required textbook for my Strategic Marketing Management class. I found this book to be easy to understand and followed, it provided useful information.

Arif says

commentsss

Aziz Haddam says

hhhhhhh

Deniz says

I found the text very easy to understand when you actually read the text and the examples. Each chapter builds on the previous one, and the text reminds you of the main ideas from the previous chapters. I liked how the ideas behind the theory is explained, rather than just telling you how to solve the formulas. The book also gives you real world financial challenges and problems, giving you an idea of how the real finance world works.

Mickey says

Oneof the most amaing book in financial bascs till date....gives u a complete overview of all aspects of financial basics thoroughly

Melissa says

Technically I read up to 450 or something, the end of chapter 13. But considering how much of it I read twice I'm counting it as finished. That and the fact that I won't be picking it up again until I'm done school. I'm still amused by the book having a sense of humor.

Ashley says

ADMS 3530 - Finance - York University- Fall 2013- Professor Samuel Alagurajah

Valerie Sherman says

A very good, readable textbook. The formula summaries at the end of each chapter were helpful.
