## **Here with Me** A.C. Marchman

Donovan Callahan and Allie Marshall are enjoying their budding relationship, happy and completely head over heels for each other. Their pasts have been dragged to the surface and they seem to have worked through it all. They want to live for the here and now. That is, until Claire Dubois, Donovan's psycho ex, is released from prison after having her trial overturned for killing her husband. Claire and her equally nasty crew of Frank, her stepson, and Donna, Donovan's stepmother, stay hot on the lovers' trails, following their scent everywhere they go and causing a path of destruction along the way. When the well being of Allie's son, Jackson, is threatened, the two will stop at nothing to protect him. Even if it means putting their lives on the line. But with Claire around, you know things won't go down without a fight. All hell is about to break loose as Donovan and Allie fight to save each other from the grips of this evil woman's clutches. Who will win this battle for love?

Finally! They had their happily-ever-after ending. For all of the things happened to them they're still attached and loved each other. I'm still pissed with Claire. She's a really a bitch, no doubt about that. And as for Donna, she's fucking annoying! Oh well, she just needed Robert's money so she married him and when she thought she had finally found her 'the one' she became like a Claire, a bitch, an obsessed woman.

I still don't know why Donna helped Claire into such things. Are they related? All I know is she did that for money, money and money. Is money all she cared about on her life? I'm still confused.

Oh! Poor Frankie. I don't know what to say. He really wants to get into the pants of Claire. I guess he just followed the head of his d\*ck. He can change but unfortunately it's too late.

I was hoping that Allie would get pregnant in the end. I already imagined that in my mind. But nonetheless, this series is soooooooo goood! I had fun reading this.

I'm looking forward to another series/books of the author. I will definitely read your works!

Hooray! 2 thumbs up! 5 stars

Bueno al menos este es el final, así no veo decaer más esta saga que en un principio me encanto. En este libro los personajes se me hicieron muy cursis y ni hablar de las escenas de sexo las cuales fueron muy repetitivas (90% del libro fue de ellos teniendo sexo), también el final de los villanos deja mucho que desear justo como algunas situaciones que se resolvieron de manera apresurada para mi gusto, sin embargo recomiendo los primeros libros de esta saga.

I got an ARC copy by luck and all I can say is it was great. I have been crazy sick and got to relax with a great book. Drama with Claire again and she is still crazy but Allie and Donavon work together to get thru it and in the end LOVE never stops for these too. I want more but I don't want more since only one couple can go thru so much and still hang on to each other is a lot of trust. A must read by any means.

It was an interesting ending to Donovan and Allie's story. As usual, Claire makes things interesting and you have to keep turning those pages quickly to see how it all ends. An overall good story and a good series. I would give it 3.5 stars.

Amazing ending to the series. I'm going to miss sweet and sexy Donovan, and Allie. Loved the twists in this book! Claire is CRAZY. 5 stars!

*Favorite quotes:*

*"'Good morning, beautiful,' he whispers as he looks at me with such intense heat I can see he's hot for me already."*

*"'Baby, there's so much I want to show you, so many places I want to take you. You are my forever.' I whisper as I push a strand of her chestnut hair out of her face. She doesn't respond, other than a light snore. 'You have no idea how much I need you, Allie. Absolutely no idea.'"*

*"She giggles and it's music to my ears. Her laugh sounds like angels singing..."*

*"I hold her delicate hand in my own and stroke her soft skin. I love her so much and I never thought it would happen to me. To have so much emotion and heart invested in someone like this never even crossed my mind."*

*"I can't believe I feel like I'm blushing, but sure enough, I feel heat on my cheeks. It feels so good to hear her say that to me..."*

Really enjoyed the final book and ending for Donovan and Allie. Jackson, Allie's son, is a sweetheart and both families show what it is and means to be "a family".

Claire is back to her old tricks and will do anything to get Donovan back. Her side kicks are with her, Donna (Donovan's stepmom) and Frankie (Claire's stepson), to help along the way. Donovan and Allie have a connection and love for one another that they will do anything to protect each other. Families are put to the test as it goes head to head.

\*\*My lower than 5 rating is due to: several typo's and just wanting a little more in the end.

Bored me to the point of tears!

I love me a good sex scene but not in replacement of actual story telling.

This was 140 pages of screwing and 20 pages of storyline

The story was dull, predictable, with a real shitty ending. Total shame as I loved the other books in the series

This will be harsh. Be Prepared.

So this is book 4.... the end of a series of books that could have been finished in maybe 2 if all the boring -- yes, boring -- sex scenes were removed. I'm not a prude and I love good sexy times in books, but c'mon... these two hump like rabbits.... and during the most inappropriate moments. There's no build up or good foreplay, just that they look at each other and she gets wet or he gets hard and they're at it again! And the dialogue is awful. It's great that they love each other and they've finally admitted it, but holy cow there's just so much of it.

Donovan and Allie have to be two of the dumbest characters I have ever read... and that's saying something given the amount the romance books I read each year. They put themselves in awful situations, no one uses their brains and the idea that the police "can't do anything about it" is ridiculous.

What was perhaps the worst part for me was how she ends up getting Jackson back. This was open adoption at its most liberal because she arranges for a neighbor to adopt and raise him... but then to give that neighbor stage 4 breast cancer was absolutely ridiculous. And that's kind of glossed over.

I wish I hadn't wasted my time, but did want to find out what happened with Claire and the psycho gang in perhaps the least exciting, most anticlimactic ending to this saga.

There is an HEA and a wedding for those of you who need one.

The 4th book in the Callahan series, easily the best of the bunch. Loaded with romance, danger, and surprises. I could not put this down! I want to talk about several things, but it would spoil them for you so I'll shut up.
