Historical Romance Large Print Edition

He had done the right thing for the wrong reason....

A man driven by despair and an unwillingness to forgive, William Woodville fled his native England, his title, and his duty. In the American wilderness he found the perfect vengeance: A woman. She was a captive handed from tribe to tribe in an odyssey of despair... until William purchased the untamed innocent on the auction block; married her, bedded her, and defiantly presented her to his father in England before he turned and left... ***alone***.

Abandoned by the man she loved, she let the pain of betrayal make her strong....

Margery Mackinnon needed a family more than a husband, love and security more than an explanation, and time to discover the strange world about her. She blossomed from a primitive wildflower to a lady of the town: the woman she was destined to be. When William returned to the wife he left and the twin sons he never knew, he was captivated by a beguiling woman unwilling to forgive him. **Now the man who abandoned love must fight to reclaim it....**

Sanam says

Will as a hero had absolutely no redeeming quality.

Regina says

Old fashioned love story. Enjoyed the premise: child kidnapped and raised into adulthood by Indians, rescued by hero. There was a lot of promise in this type of story, but it got bogged down with day-to-day details once Margery arrived in England. An okay read. 3 stars.

Mary L. says

I enjoyed the book very much (I'm a sucker for a good betrayal) and this one had plenty of them. The H used the h in his battle of wills with his father and left her defenceless when he abandoned her to his family. He has a very large surprise when he returns and must work to keep his marriage. This book was the last of the MacKinnon series and wraps up the series very well.

Melanie says

A bore fest...I don't know why I started with this in the first place. I like the theme but the characters were so unpalatable and absolutely boring. There is not one redeeming quality in this book.

BURMA says

Better the first half. Very promising. The second one becomes a predictable, almost boring story. What a pity.

S Miller says

Used - Good - binding worn

Mydearloverboy says

H doesn't deserve h:(
