Murder On Ice Carolyn Keene

A weekend on the slopes is just what Nancy and Ned need to rekindle their romance. Joined by Bess and George, they head for the mountains - and run straight into deadly peril. First, Nancy's towline breaks, then she and Ned careen toward cliff's edge in an out-of-control Jeep! Among the suspects is a good-looking ski instructor who's already got George falling for him. Nancy's got to move fast - before an avalanche of murder buries them all!

Srishti says

This one was surprisingly intense! There was a sense of real danger and malevolence that the previous two lacked. Full of the same usual Nancy Drew tropes that we know (and, admittedly, love), it was an enjoyable read. For a change, it was George who didn't believe in Nancy, rather than Bess, which was a refreshing change. And plenty of suspects abounded! Plus the lack of internet was super frustrating! If you want to revisit this series, I'd recommend this one!

Jerry says

A Quickie Review

This is the third book in the *Nancy Drew Files* series that I've finished today; I don't have much to say that I didn't already write in the earlier reviews. Young mystery fans--or ones who are young at heart--will probably enjoy this...but, that's kind of a given.

Content Concerns:

- **Sex:** A reference to a guy and girl hitting the jacuzzi alone together. **4/5**
- **Nudity:** None. **5/5**
- **Language:** None. **5/5**
- **Violence:** A couple of accident scenes; an accidental death is described; some "PG"-level peril. **3/5**
- **Drugs:** None. **5/5**
- **Frightening/Intense Sequences:** As usual for this series, there are several suspenseful moments, especially when a character is feared dead. **2/5**

Score: 5/5

Sanara♥ says

Actual rating- 1.5/5 stars.

So much for being a detective! God, Nancy's got to be really thick for not figuring out who the murderer was from the start. It seemed so obvious. And she's supposed to be the "detective"! *facepalm*

And Nancy would have been able to figure things out way before, if she and George had actually had an honest conversation, without getting angry for the most silliest reasons!

This story is very disappointing and frankly, quite annoying to read. :/

Lydia Dyslin says

Murder on Ice is the third book in the Nancy Drew Files series.

Oh dear. This was my first Nancy Drew Files book and probably won't be my last . . . I own quite a few of them. The traditional Nancy Drew books are better than these. I forgot how impossibly perfect Nancy was. I found it funny how everyone believed automatically that she was a detective. The motive was perfectly ridiculous and very weak, the title misleading -- a murder was never actually committed! Everyone, even George, was caught up in men and their petty little "romances". As someone who practically lives in VT, VERMONT IS NOT AN ARCTIC WILDERNESS!! We have people! We have electric crews! We have SNOW PLOWS!

I shall now proceed to facepalm into eternity.

2 stars out of 5.

3.5 Stars

Lisa Greer says

I read ALL of these I could get my hands on through about 4th grade or so. I was a voracious reader as a child. These are NOT as good as Carolyn Keene's original series, but they were still good enough and modernized.

Kereesa says

~~Some days you just need some terrible ND.~~

You know I was being fairly flippant with my previous statement, but hot damn was this book just *awful*. I don't know if I had read it before in the past or had read a similar plot structure but this entire book was just *garbage*. And not like *Yeah, Nancy Drew is kind of garbage*, but like *what???*.

The plot could've been ENTIRELY fixed if George and Nancy LITERALLY TOOK TWO MINUTES OF THEIR PRECIOUS LIVES AND **TALKED** TO ONE ANOTHER.

They even say it at the very end of the novel! That they could've solved the mystery that much quicker if they just COMMUNICATED.

flips table

Whatever. THIS. WAS. AWFUL.

Spokhette says

I think this was the best nancy so far. She was strong and assertive and there was even MURDER! I love how different the 80's series is from the original, i will continue to plow through her books. (See what i did there?)

Nancy and her friends go to a ski resort for a vacation, but bess lets it slip thats Nancy's a detective and suddenly shes on the case searching for a prowler, but what she discovers is much more dangerous.

Leah says

I love rereading these. I love how 1980s/early 1990s they are. This one isn't my favorite because the first time I read it I figured out who the real murderer was and hated how it took Nancy so long.

Yrsa says

Det märktes att det inte är en bok i originalserien, den här var lite mer inriktad på pojkar och relationer (utöver mysteriet). Men det var trevlig ändå.

Amanda says

I tried to read this book so many times when I was a teenager. I would only ever read the first few chapters repeatedly. Then I gave up.

Deborah says

This Nancy Drew seems different from the one of my childhood. I don't remember the amorous feelings for Ned. Oh well, the mystery was atypical and returned fond memories of yesteryear. I may seek out one of the older editions to continue to reminisce.

Samantha says

This book is about a girl who solves mysteries. Her name is Nancy Drew. Her and her friends, George, Bess, and her boyfriend Ned, are on a ski vacation when they run into the mystery. They are solving a mystery about why this wierd person keeps snooping around trying to get into the lodge that they are staying in. One night while Nancy was laying awake in her bed she looked out the window. There were two eyes looking at her and then they vanished. She got out of bed and went to look to see if she could see who that was but when she looked out of the window all she saw was the word "MURDERER" in capital letters. She has some

suspects but she is narrowing them down. If you want to know more you will have to read this good book.

Michelle says

A weekend on the slopes for Nancy & co. Things was a bit tense between Nancy and George here. George was falling for the ski instructor however he was also the prime suspect for the series of “accidents” that had been befall the gang. The culprit was obvious since the beginning and Nancy’s failure to spot him despite the tons of clues disappointed me. Girl wonder really fell way down from the pedestal in here.

Lenni Jones says

Action all throughout the book! Nancy almost dying, Ned almost dying, and then Nancy with Ned and they almost die! Crazy right? And the weird thing is, Nancy suspects those traps weren't for Nancy and Ned. Luke Ericson, George's new BF has a past he's not filling the rest in on and Nancy suspects he has something to do with these traps. Can't rest now Nancy Drew, there's another mystery waiting!
