I promised myself over this labor day weekend that the only books that I was going to read were books that I loved from various genres. I happened across this little hidden jewel and once I started I literally COULD NOT put it down!!! R.J. Fletcher did an amazing job with this story. The story is centered around the title's name sake, Sasha. Sasha is this young college student who is in dire need of love. She was literally thrown away by her mother and left on the steps of an abandoned church at the age of 8 and from that point on she was shuffled from foster family to foster family. Once she aged out of the system she resigned that she would be the most focused and dedicated student that she could possibly be all while hanging onto the friendships that she cultivated with Jaylenn, Teagan, and Faye. The only problem with that decision is that of the 3 ladies that she is friends with TEagan is the only one who truly has her best interests at heart. While out doing a ladies night with the girls they all notice a handsome man sitting alone. With the exception of Sasha they begin to primp and put themselves together arguing over who should approach him. While Faye and Jaylenn are distracted Teagan makes her way over and introduces herself to Dmitri. After a few dates it is very clear that there will be nothing between the two and they part ways. The intriguing thing however is that Dmitri finds himself attracted to the less glamorous friend, Sasha and is confused because she is not his normal cup of tea so to speak. The story goes on and we meet a myriad of characters and several events unfold that turn our little naive, trusting, love-starved Sasha into a broken mess. I literally felt the joy the emanated from Sasha, her moments of insecurity, the sadness that had a way of creeping in when he unintentionally would dismiss or ignore something that was ultimately important to her. The level of emotions that were invoked in this novel are only a true testament of what R.J. Fletcher is able to achieve while writing this dynamic tale. I'm so glad that the series is complete because this is one that I will surely be reading over the weekend!! Kudos R.J. Fletcher loved the writing style and characters and can't wait to read more!!!

DNF stopped at 33% I'm hoping for the authors sake this gets better, but I just can't. The heroine had ZERO self esteem. The dude you are in a relationship with has said although he is drawn to you you are not his type, but he wants to "f" you. SUCKING MY DAMN TEETH - I wish a man would step to me with that bs. I can't take weak chicks and I get the abandonment issues but see a fucking therapist and grow a backbone. You got so called friends hanging up on you for rides and calling you a fat b - nah this is not my cuppa. Return

### **My goodness**

My goodness, this story had me so enthralled. Dimitri and Sasha were totally opposite of each other and so unexpected for each other. However, they worked until things didn't. My heart totally broke for Sasha in the end, which caused my eyes to leak. I'm glad that she stood up for herself in the end. Now, on to the rest of their story.

Thoroughly enjoyed this one.

#### **Slow start but worth the wait**

It took me a little while to connect with Sasha and Dmitry, the side characters were a little distracting until I got to know them all. Then my emotions were pulled up and down by both their pasts. I'm expecting a happy ending in book two this one left me with waterworks. I feel rejected on Sasha's behalf.

#### **Not a fan**

I got about 70% of the way through and just could not make my self go any further. I didn't like the male main character he's just a jerk, the transition between scenes is virtually nonexistent and the story is just boring. Also the female main is so passive and just a doormat and continues to be one even after acknowledging that's what she is. The second book by this author is way better and if you get a chance to read the next book in the series you will notice similarities in story. There were also some typos and a few issues like is he the younger or older brother? At one point the ages of the characters got switched.

This book was first published on ValentChamber for free and I was always excited to see an update from this author, simply because it was a mindless read.

She made it easy for me to be emotionally invested in the characters, especially the protagonist Sasha, and judging by the amount of reads she has gotten, I'm clearly not speaking for just myself.

This book is ideal to be read at the end of a long day at work and you just want to get home and chill, and leave the world behind until the next day. Despite having read the book in full for free, I bought it because she deserved a paid credit for her art.

From what I can tell, this is a debut story by Fletcher. I'm not 100% sure because I didn't dig too deep. And somehow I missed the part that this is a part 1 story so if you expect an HEA or even HFN for your time and dollars spent, you're wasting both.

Sasha Harmon is in her early/mid 20s and works at a diner while attending graduate school. She's going for a degree in International Relations, not sure what she'll do with that when she graduates. She lives with Teagan who is one of her three good/best friends. The other two are Jaelynn and Faye. As the plot develops, by chapter 2, it turns out that both Jaelynn and Faye have their own passive aggressive hatred/dislike of Sasha. Interestingly enough Sasha deemed them good friends and was part of their inner circle. But I digress.

While the four of the ladies are out clubbing one night, they meet Dmitri Vikhrov. Dmitri is immediately smitten by and starts chatting up Teagan. These two do end up going out for a time but according to Dmitri Teagan's a bit of a mental lightweight so Dmitri dumps her and decides to go for Sasha. I know, I know – I really should have stopped right there.

Sasha's innocent, virginal, sweet, and is all things good. And from reading the author's blurb, she's the one in her group that's the least attractive. Many group friendships have this dynamic so I was looking forward to how the author would not only present this story but solve for Sasha's looks and sugary sweetness.

Sasha was abandoned as a child and in her adulthood she can't seem to help but cling to friendships – especially Faye and Jaelynn – that are not reciprocated. These things should have made me like this heroine. She's smart and looks like the girl next door. I expected to have something in common with this heroine. I expected to read about her and can't help but empathize and want to see her and the man she's chosen, Dmitri, to be together.

I should have like this story much more than I did. I tell you why I didn't. I found myself taking notes to keep track of what's going on. It's not like this story took me a long time to read. A few hours spread over two days and I was done. But what took so long was - I kept getting lost. The abrupt change of a character's story was jarring to say the least. One minute I'm reading about Sasha and her diner friend, Dina, having a conversation about Dina's date and what I thought would be Dina's relaying the story; instead the author's decided to put me in Dina's head and give me what she and her date did. Why? This story should be from Sasha and Dmitri's points of view. Why am I reading about other characters points of view? I don't care. They can have their own story but not right now. This happened multiple times with multiple characters and

each time I was frustrated.

The dialogue was inconsistent and should have been better. The contractions are missing for people who speak English as their first language. I know they're living in Boston but come on they speak with contractions there. In all my readings this is my first time to read the word 'cuz' in a sentence. I'm used to 'cause as it's slang for because but what the heck is 'cuz'? Then there's the random formality thrown into any given description. 'Upon' seems to be a favorite word that was overused.

But I'll tell you what really got my goat in this story. Dmitri's absolute dislike of Sasha and Sasha's desperate need/want of Dmitri. He didn't like her and told her this. He didn't find her attractive and told her this. He decided to indulge her with his company after she kissed him at some random party, by the way he was still dating her friend and roommate, Teagan, at the time. There's nothing that this author showed me that made me believe that Sasha should like or even fall in love with Dmitri.

These two went out for a short few days/weeks and Sasha was already falling in love and seeing a future with this dude. They'd, rather Dmitri had not even publically acknowledged their romantic status. And just in case you wondered, Sasha's skin color reference was upfront and present. Turns out that Dmitri's family is a bunch of racists, not sure why they just couldn't just not like her because they didn't know her. And it also turns out that her good friends Faye and Jaelynn was secretly hating on Sasha because she's black, not sure how that never manifested itself before considering how long their friendship was for.

Happy reading folks!

Well... I didn't hate it and I didn't love it. It was simply "okay"

I honestly don't know how to take Dmitri, at one point I am like this dude is a huge ass and the next I am like okay well maybe not...and the cycle continued. His whole family minus Dom was huge asses and made my stomach hurt. His comments at times made my skin crawl... I can understand feeling intrigued by someone's differences in the beginning but when he in so many words said she was nothing special.. I wish he was real so he could get the hell smack out of him.

Sasha.. I understand her struggle, I get it but I swear her woe is me got on my nerves at time. I wanted to be like DAMN DOORMAT... she grew little balls at the end but by then you are like um okay.

I didn't think the climatic moment warranted that sort of reaction honestly. I was like um it would take her 3 min to explain and then we can all see that this was sorta water under the bridge. However I knew there was to be a "fall out" moment because there was a book 2... by the way why was this one broken into 2 books? it was only 153 pages (insert shoulder shrug).

I am going to start the second book but if it's anything like this one I probably won't be finishing it.

I made the mistake of starting this series before all the books were out and now i'm upset because I really want to know how their story ends. They both do things that annoy me, but darn it, their ride is sure a fun one. Plus I want to learn more about Dominic , Taegan, Dina and Slade and the rest of those 'interesting' characters. :)

This is my first book by this author and I read it on Kindle Unlimited.

I understand that this book was originally on the Chamber and readers got to read the whole story. Whilst I thought this was a great read, I was very disappointed that yet again an author has split a great story into parts. So now we have to wait until 2016 before we can read the end of the story.

I loved Sasha and how she came into her own. Dmitri proved himself to be a right ass. Let us hope he can redeem himself in book 2.

#### **"Heartbreakingly" good**

I cannot honestly remember the last time a book had me crying so much that I could barely see the words on my tablet. My heart went out to Sasha. She is a likable and endearing heroine that you just feel you have to root for. True her backstory was awful but she kept moving forward even though her self-esteem would take quite a few hits. Dmitri took a bit longer for me. He came off like the typical jerk looking for that one thing at first but thanks to the refreshing Sasha he begins to come around. There were some ups and a few more downs in the relationship, mostly from Dmitri's family. Pasha proved to me that went hard for those she loved but in the end life just kept throwing those hurtful punches and kicks to her still fragile heart. I don't want to give anything more away or have the waterworks begin again so I'll just say that this was a great book from a new author to me personally. I can't wait to see what happens in the next installment. From the little snippet at the end though I only hope Sasha puts him through the ringer first!!
