Special Delivery Reagan Shaw

“Did you have to sleep with my sister?”

That's not the question I wanted to hear from my best bud.
On his wedding day no less.
As kids, I tried to make her hate me.
It was my way of not picking the forbidden fruit.
Now, my buddy is forcing me to dance with her to the first song.
I step on her dress and all I hear is RIPPPPP.
Once that curvy body was unleashed, there was no stopping my desire.
We aren't kids anymore. No games. No limits. This time, I'm taking what's mine.
I just didn't expect to have to tell my best friend what came next.

“Dude, your sister is pregnant, and I'm the one delivering the baby.”

From Reader Review Special Delivery for online ebook

Jennifer says

First time read for Author Reagan Shaw and I truly am in awe of the talent displayed throughout this beautifully crafted romance. Noah has secretly loved Erika since he first set eyes on her. The issue is that she is his best friends Sister completely off limits and all that this bad boy wants. Erika enraptured and compelled him to act like a complete a\$\$ for most of their teenage years. However, he was warned by her Brother to stay away. Years later, these two meet again and the desire and combustible chemistry just roars through them both. Will they ever get their happily ever after? I absolutely adored every word of this release and found the ending to be an example of life coming full circle for them. I do not want to give away any part of this incredible storyline however I implore all lovers of a magnificent romance to devour this book. Special Delivery will draw you right in and keep you there from cover to cover.

I was beyond fortunate to have requested an advanced reader's copy of Special Delivery in exchange for my honest/voluntarily given opinion and I loved it. I think that this is an Author to watch/follow

M Hurford says

Storyline Deliver...

Special Delivery by author Reagan Shaw was a good Dr to Dr romance with a mean brother thrown in. Two OB/GYNs grew up in the same neighborhood. He was best friends with her brother and she was the nerd. They hadn't seen each other in ten years until her brother wedding. Then the storyline kicks in and moves along with Noah trying to deal with his feelings as does Erika. However dealing with them seems to result in something special.

I liked this story and am recommending this book for your reading enjoyment and pleasure. I am volunteering to leave a review of this review book.

Cassie says

Noah always wanted the one person who was off limits. Erika always had a school girl crush on her brother's best friend. They were enemies, but not any longer. Will Erika accept the truth when Noah gives it? Will Noah be able to have the girl he has always dreamed about?

This book definitely took me on a roller coaster. I loved the heat between the two main characters and how they showed there really is a fine line between love and hate. Have to admit, I did not like Erika's brother at all, but would have loved to see if they ever talked to him again. Steamy read!

Reva Parks says

Dr. Noah Cox is attending the wedding of his best friend Marc. Sure enough, at the reception he comes face to face with Marc's sister, Erika, one year behind them in school, who he thinks is beautiful, but the two have

a reputation of constantly haranguing each other. After a dance, Noah finds that in the 16 years since he left his hometown, Erika has also become an OB/GYN. He makes a usual biting quip, follows crying Erika to the ladies' room and then closely behind her accidentally torn dress to her room in the hotel. There they have their first sexual encounter and it is hot, hot, HOT. But they are a long way from trusting and truly loving each other. You won't be able to read this book without crying!

Gosia says

This book left me with more questions that weren't answered during my read of this book. I'm not a fan of a book that leaves me wanting to know the 'why'. Why did the brother lie? Why would he not be a supportive brother? Why would he suggest to his sister that she get an abortion. Did Noah and Erika ever speak to Erika's brother after Erika has the baby? I understand that this book was about Erika and Noah but for all Marc went through to keep Erika and Noah apart the author should have known that the reader would want to know why he did what he did.

Caroline Doig says

I loved this story by Reagan Shaw and she is a fairly new author to me but now I will be on the lookout for more of her stories. Erika and her brothers best friend Noah had crushes on each other in high school but didn't say anything to the other so they eventually went their own separate ways, but 10 years later they are brought back together through Erika's brother Marc and his wedding. They both want each other again but there is someone in the background who doesn't want them to be together, there are secrets and lies that have kept them apart so will Erika and Noah get their HEA?, to find out the answers to that question and more then you will need to get this book. A fantastic story a 5 plus ?? read and I highly recommend this book it's definitely well worth the read.

Jennifer says

Erika has had a crush on Noah, her brother's best friend, for years. She has no idea that he has wanted her all along but never made a move because he promised her brother to never touch her. that all changes at her brother's wedding when after accidentally ripping her dress, Noah can't help but cave and devour her. Thought deep down they want to keep going m,they decide it has to be a one time thing. They both have their own baggage and figure they will never see each other again. Fate intervenes when Erika ends up working at the same hospital as Noah. Thus begins their romance filled with drama, misunderstandings, an interfering brother and passion overload! This is an emotional roller coaster ride, but you will be happy once you have taken the ride!

Modern says

This is one of the best frenemy to lovers story I have read and a new author to boot! Noah and Erika are amazing characters.. both flawed but passionate. It's almost like their path was inevitable but the journey is quite literally one for the books. This is a great story for those who love romance with passion. I received

this book for a voluntary, completely honest and non incentivized review.

Terri Eaches says

An Ultimate Hate to Love Off Limits Story?????

A great introduction to a new author that has made my MUST READ list. The risk of the forbidden best friends little sister along with Erika and Noah's attitude toward each other is both humorous and hurtful trying to fight their high school crush. After years with no contact they are bright back together at the wedding of Marc, Erikas brother. Old feelings come crashing back for both, some good and some not so good. To say they have a rough road to go is an understatement with the secrets and lies. When the truth is revealed will it be to late or will the love they harbor grow into forever??? An exciting and steamy story where the past continues to rare its ugly head but miracles do happen. I'm excited to hear more from Reagan Shaw!!! I voluntarily reviewed an ARC of this book

Darlene says

I wanted to smack sooooo many peoples in this book..

1. Does anyone let anyone finish their sentences?? That would help so much!! Problems would be talked about instead of running away or blowing off someone.

This was a okay book.. i just think it was dragging the drama.. we should be together, we shouldn't "im yours" push away.. "i love you" push away.. that was Alootttt in this book.. and i gotta say i hated the brother.. he was the reason allll this drama was drama.... also i really wanted him to get his ass handed to him.. he made a couple his own sister life hell for lying to her.. made her go through 9 months without the father. He made sure his own best friend didn't get to be apart of the pregnancy!!! and he didn't get a punch in the face.. booo!! Just a "get out" and we never to be heard from again.. i feel bad for Noah and Erika they deserved better... lol

Angst, past ex boyfriend, drama, no cheating..

Merry Jelks-Emmanuel says

Marc and Noah are best friends. Marc warns Noah about his sister and he stays away from her that was ten years ago and now they unite at Marc's wedding. Noah and Marc's sister are OBGYN doctors who find out they will be working together and on the night of Marc's wedding, things take an intimate turn and now

there's a bun in the oven. Will marc forgive his best friend or will there be discourse between them? I voluntarily agreed to receive an ARC of this book for an honest review.

Kaye says

DELIGHTFUL!!!

OMG! Talk about an amazing little jewel. Reagan works her magic with this little gem. So touching and sincere. The instant connection and explosive chemistry between the two main characters is such a beautiful thing to behold. All the twists and turns, unexpected surprises around every corner make for one heart melting experience. Throw a little spice into the mix and you have the makings for one touching not to mention a little humorous story that just draws you in so deep until everything else ceases to exist. Watching as the sparks fly, they're instantly drawn to one another. Stronger than either had thought possible. All the drama, love, heart pounding, pulse racing, smooth flowing, page turning and a little intrigue make for one incredible experience. A whirlwind of emotions and events that really pulls those heartstrings. The characters and scenes are written with such realism it really pulls this little treasure together beautifully. Reagan totally nailed this little gem hands down, 100% on point details and descriptions. You feel everything the characters feel. You become part of the story instead of a bystander. You fall so deeply in love with the couple and root for them to make it. Reagan did a remarkable job bringing this read to life flawlessly. Remarkable job Reagan, thanks for sharing this little jewel with us.

Raecharmed says

Noah has liked Erika since they day he met her but her brother made it clear she was off limits or lose a friend. So he did his best to make her hate him so there wouldn't be any chance of giving in. Erika could never figure out what she did that made Noah take an instant dislike to her and it broke her heart because she couldn't move on from her feelings for him. Now years later they run into each other at her brother wedding and sparks fly. Noah can't hold back any longer and he claims Erika however she thinks he is a playboy and ends their night on a bad note. When she runs into him at her new job she is stunned but determined to stay away from him personally. Can Noah get her to give him a chance? Will they see the threat to their relationship before its too late?

This is an amazing story once I started I couldn't put it down. The chemistry between them is blazing hot. This is a well written and a very entertaining story. I would recommend this book to any book lover.

I voluntarily read and reviewed this book.

BB says

This book is infuriatingly terrible. The plot drags on and on, peppered in with annoying ass flashbacks. Amazingly there is not 1 character that's remotely likeable. They're all petty and dramatic. Not one. Reading it feels like whoever wrote it did 0 planning, and never bothered to go back and re read. No one is given a chance to be remotely bearable. The tone of the book is like a reality show's reunion episode, everyone screaming. I have no idea why I read all of it.

Insufferable. That's the word.

Misha says

Not for me.

This was a new writer for me so I made sure to finish it, but it was hard. Everyone just seemed like caricatures and much of the plot line seemed contrived and unnecessary. It seemed so promising when I read the synopsis too. :-(Perhaps it just isn't for me though. I found the drama/angst eye rolling worthy. However, if you like books that read like a telenovela this might be a good read for you. I just didn't enjoy it, but you might.
