Sweet Deal Harper Logan

*Russ is awfully sweet for someone who pretends to be so salty.*

Gruff ex-punk Russ is a sweets-obsessed baker, struggling to get his dream business off the ground. His cupcakes are delicious and everyone loves them—so why is his bakery failing?

*“I’m begging you: please call me for an interview...”*

Arthur is about to lose his mind. With his amazing grades and business degree, he thought he’d be a shoe-in at any company in Rosebridge—but he can’t convince anyone to hire him. With his savings drying up, it looks likely that he’ll have to admit defeat and return home to face his homophobic parents.

*Arthur is simply off limits—he has to be.*

Arthur is perfect for the bakery: motivated, meticulous, and a great worker. Unfortunately, Arthur is also gorgeous, hilarious, and way too young for Russ to date.

Arthur can’t ignore the way Russ’s strong arms and low laugh send electricity up and down his spine. He can’t let anything jeopardize his new job, but Arthur also can’t ignore how perfect the two of them could be together...

**Sweet Deal is a steamy 55,000-word contemporary romance with May/December themes, a workplace romance, and a happily-ever-after ending.**

## From Reader Review Sweet Deal for online ebook

### Elizabeth says

That's exactly what this book is, a sweet little deal. The story is low on angst and drama but high on sweetness, flirting, and longing.

Super cute and fun. Good read with a darling epilogue.

---

### Jennie says

I received this story for an honest review. This is the first time reading one of Harper Logan's stories and I must say, I am impressed.

Russ and Arthur were so cute together. I loved this story from the very beginning. The humor, the warmhearted Russ and the endearing Arthur really put the topping on this sweet delicious read. I could definitely read this story again.

I do very much look forward to reading more from this author.

---

### Nerea says

3.5\*

Awww so sweet!!

Slow burn story about a baker and a business graduate desperate to find work!

They fall for each other soon, but their age difference and their business relationship make them to hold back their feelings.

♥ I enjoyed this one!

---

### Zuzu says

Very sweet story. Russ was 11 years older than Arthur and thought he was too old for him. He owned a bakery and hired Arthur who was a business major. Arthur ended up helping build up the business and Russ realized he wasn't too old for him after all. The meeting with Arthur's evil parents was a bit OTT but I enjoyed the rest.

---

### meep says

I Loved the couple so much and that ending was so sweet. I just wish we got to see more of Li. He was such

a cute character.

---

### **Candice says**

LOVED! Arthur and Russ were so damn cute, well Arthur was and Russ was just hot.

---

### **~Mindy Lynn~ says**

This was sweet, fluffy, and full of sugar and spice with some guys who were extra nice.

There's really not much to say about this one because there wasn't much really going on. It was just a cute romantic story about a couple of opposites being attracted to each other. One fighting it and the other in high pursuit of obtaining the other. They did a nice slow dance around each other and I enjoyed it. It is one of those reads you want when you need a break from the others that make you think too hard.

So if your looking for easy and sweet, then this one is for you.

Happy reading, dolls! xx

---

### **Christelle says**

2.5 stars rounded up to 3 because of the nice epilogue

It's a sweet and easy romance between Russ, a nice guy who likes music and loves baking but with not a huge sense of business, and Arthur, fresh out of business school and ready to accept any job, even if it's working for a bakery involving some cooking. And from the start, Arthur is totally smitten with his new boss.

No angst, nice sentiments but for the homophobic parents of Arthurs, steamy with a nice epilogue. But it didn't hold my interest much.

And I can't help but to state : a 25 year-old man is "no kid" and a 35 year-old man is no "old man".

### **~☆~Døni(ela) ♥ ?? love & semi-colons~☆~ says**

I get so excited when I discover a new (to me, at least) author on Kindle Unlimited who, lo and behold, actually publishes a book worth reading.

***Sweet Deal* is a happy, feel-good story.** Russ owns a bakery. Arthur, who has an MBA but no prospects, is

desperate for a job. When Arthur sees that a bakery near his flat is hiring, he pens an outrageous email essentially begging for an interview. Russ is so amused, he responds. Arthur shows up for the interview in a suit, which is both awkward AND adorable.

Arthur isn't much of a baker, but he's a social media guru, and he has all kinds of ideas about how to bring business to the fledgling bakery. He's kind of worried about stepping on Russ's toes, but Russ is nothing if not grateful.

Arthur falls for Russ pretty much the moment he sets eyes on him. But Russ is wary. He's eleven years older than Arthur (36 to Arthur's 25) and doesn't think he's good enough.

But Arthur won't be deterred. He flirts with Russ relentlessly, and there's only so much a man can take. Russ can't resist Arthur's wild curls and big, brown eyes. Arthur is sweet and endearing, and has no idea how hot he is.

Russ agrees to a friends with benefits situation but stresses that it's sex, not love, and never the twain should meet.

That was SO frustrating. I hate it when one MC doesn't trust that the other MC can make up his own mind.

**There's some mild angst at the end (Arthur's parents are despicable people), but mostly this is a feel-good, sexy (the lap dance scene is divine!), relationship-driven story with two very likable MCs and a brilliant HEA.**

Harper Logan knows how to write engaging dialogue, but I did notice a few typos (mostly missing or wrong words) that pulled me out of the story. That was a bit of a bummer, but I still had a lot of fun getting to know Russ and Arthur.

I hope Li gets his own story!

---

## **Denise H. says**

\*\*\* Arthur, 25, got his business degree, but hasn't gotten a job,

that is until he gave up and went with something he didn't know how to do. The corner bakery was hiring, he wouldn't need a car, so he put on his suit and went to his interview.

\*\*\* Russ, 36, tattooed bakery owner,

knew Arthur was overqualified, but he took a chance on the energetic fellow. What was it about Arthur that drew him? They are each attracted, but Russ figures he's his boss and too old for Arthur; then finds that Arthur prefers older men. Arthurs parents rejected him, but he's close to his sister, and now his bakery "family" envelops him.

He and Russ get closer as he trains Arthur. Deep, rich feelings, wonderful characters, a smooth plot, and

some super hot sexiness make this a fun tale. Our guys are perfect together.

This story is a delightful M/M romance; a marvelous tale of different people finding their way to happiness. Arthur helps build Russ's business, and we do get a violent robbery, but the guys are there to help each other. You'll like this sweet, fabulous romance. This pair will stay with me.

ENJOY !!

### **Marion says**

3.75 Stars! This was a sweet and fluffy May/December romance with very little angst and a wonderful epilogue!

---

### **Tammy says**

I got this free from Harper Logan's post on MM Romance ARC Club on Facebook. For honest review. I found another one to add to my favorites list of books and Authors.

I loved the book. It emotionally pulled me in. From laughter to tears. Loved the Characters, the story line, and felt it was a nice steady pace. I will find myself rereading it again with my other favorites. Can't wait to read other books that Harper Logan has written.

Thank you for letting me read this wonderful book.

### **Aeren says**

meh

---

### **Elsa Bravante says**

:S

No tengo nada en contra de las historias sencillas y dulces, he leído muchas y me encantan. Pero..., en este caso me he aburrido, mucho, los personajes me han parecido totalmente planos, todo muy predecible, y he de confesar que ha habido momentos en que he leído por encima algún diálogo porque me estaba dando vergüenza...

Por otro lado, ha sido como leer otro de esos miles de F/M que he leído en el que el hombre más mayor "salva" a la joven damisela con su experiencia, su dinero, y físico. Meh.

No me ha gustado.

---

## **BR11 says**

3.75 stars

These two are soooooo cute! This book was a sweet treat.

I loved both characters. Arthur was so awesome despite the number his parents did on him and Russ was just adorable. I always love that combo of rough exterior and soft inside and that describes Russell to a T. He is a total teddy bear.

I recommend this book to everyone who likes a sweet romance with a happy ending and an age gap.

That said, I need to mention that this book and Bets are Off have a couple of sexy scenes that are surprisingly similar... to the point that even some of the wording was identical...

Also, the cover needs some photoshopping on Russ's eyes, since they are blue, not brown.
