## **The Cop and the Geek** Cat Blaine

James O'Brien is having a horrible day. He's dropped his car off at a repair place in a bad part of town. While he's there minding his own business he ends up in a bar room brawl with a mouthy homophobic thug.

Officer Scott Brown is the sexy, kind cop who arrives on the scene. He can tell immediately that while James is a geek, but he isn't a criminal, and is most likely just a nice guy caught up in a bad situation. The two of them have an immediate attraction and when Officer Brown gives James a ride home...things heat up.

## From Reader Review The Cop and the Geek for online ebook

### Gigi says

I just re-read this to freshen up my brain for the sequel. And I loved it all over again! Now on to the next book for more of Jamesssss, Scott and Troy...

#### ORIGINAL REVIEW:

#### Now *this* is my Valentine's Day book!

I am dead serious when I say that I have **never** been this bummed out before because a book was too short. I **want** *need* more of Geek James, Cop Scott and cute-as-pie tyke Troy.

I fucking **loved** this book. It was way, way too short and I would pay double the price for a sequel.

#### Highly recommended!

*A tip to help you love this book as much as I did:* Let yourself believe in the insta-love. (Scott's insta-love to be more precise.) Just throw caution to the wind and do it, no matter how you normally feel. I usually loath insta-love, unless it is a "mate" story. But not here. Go with the flow of the story and lose yourself in the romance. It's worth it!

Two things I didn't like about this book: the word "dude" and the word "brat." You don't ever refer to a child as a brat when talking to someone that has kids. Other than that, I really liked the story. I would have liked to spend more time with Scott and James. And Troy. And the dog he wanted James to get.

#### A fun time!!!

I had a blast reading this book!! It's short and sweet and oh so incredibly hot!! That and it had me laughing out loud many times!! I'm going to have to see what else this author has!

The **3 year old** lost his first tooth, and got money from the tooth fairy.

Sorry, I know that is a minor thing, but it stopped me in my tracks.

(if you don't have children, or aren't around kids, they don't lose their teeth at 3)

The rest of the story...it wasn't bad, just rushed. Really rushed. And pretty much stopped after the introduction.

Simply charming- thank you sandi!

### **James Cox says**

Okay, so maybe I liked James because of the name, lol. Nah, he was a great character. They both were. I enjoyed this.

---

### **Cory says**

It was OK. In a few months I probably won't even remember either of the names of the main characters, but it held my interest enough for me to start and finish it in one sitting.

### **Ann says**

The author pulled the premise off in this one really well. It could have easily been cookie cutter formula, but the characters were unique enough to make it memorable. James is definitely a geek, but he's no wimpy pushover and I loved that about him. Scott was a big ol' softy underneath the uniform and his insta love for James was pretty charming. The fact that James didn't cave to it right away kept it from being cheesy even though I wanted Scott to have ALL the love right away. James's slightly defensive attitude made the story better and more believable.

Books involving kids really makes me happy right now. I really don't know why but I seem to enjoy stories with family talks in it. I had fun reading this one because of how the author built up the characters and the story itself.

Overall, I think the book was good. There may be some parts lacking like the explanation about James' family and Scott's backstory about his kid. The way the book started also had its good parts. It was like

starting the action early on which I think was good.

The main conflict was not that dramatic which was good. The author didn't overwrite the conflict which I think worked wonders.

### **Sandi ♥'s way too many M/M books says**

It was a very cute quick read. But I couldn't get past the 3 year old boy being more like a 5 year old than 3. It irked me.

3.5 Stars

### **~◊~Doxni(ela) ♥ ?? love & semi-colons~◊~ says**

This takes place before Thanksgiving, which makes it not a Valentine's Day story. And, no, I don't care that it was published on February 13.

**The word "dude" is NOT romantic.** In any context. EVER.

The 3-year-old kid here read at once infantile (what the hell was up with the baby talk?) and TOO mature (he was overly interested in Jamesssss).

**Abusing your power to essentially spy on a guy you hope to date is egregious. And stupid.**

Many single parents date, and they don't run background checks on every potential partner. Because. PRIVACY.

They simply spend time with them and get to know them BEFORE bringing them home. Shocking, I know.

Snooping through someone else's phone, finding a private address, and then showing up on the doorstep unannounced isn't cute. **It's fucking crazy.**

Just cause he makes you pasta and fucks you doesn't mean you have anything in common. Except pasta. And fucking.

### **Alona says**

That was such a sweet, fun and easy read. Just what I needed!  
If you are in a need for a short, angst free book, (with the sweetest toddler ever!) this one will be the perfect choice!

Thank you Gigi, for a great rec!

### **Tina says**

Usually I'm not a great fan of short stories/novellas but I loved this one. A lot! I would have loooooved to read a longer story featuring Scott and James! They are so sweet together and freaking hot! Highly recommended! :)

### **Susan says**

This was... not that good.

James meets cop Scott after James was involved in a bar brawl. There is instant attraction (very bad instant attraction I must say) and Scott takes James home.

James has bad experiences with cops and he also said he would never date a guy with a kid. Scott has a 3 year old son. But of course this specific kid is adorable and James is a natural with him.

James goes to dinner at Scott's, there is instant bonding with the kid, there is some sex, there is a stupid fight and 3 days later they make up.

I'm not sure what bothered me more. The fact that Scott did a background check on James and said it was all to protect his son (can anyone say PRIVACY..). Or the fact that Scott's sister gets a hold of James' address when Scott is taking a shower and goes to see James behind Scott's back to tell him to contact Scott. Because that is what you do when your brother has just met a guy, you go all stalker on his ass.

Euhh... just no...
