The Dead Years - VENGEANCE - Book 5 Jeff Olah

Amazon Bestselling Post-Apocalyptic Series The End of the World was Only the Beginning. What would YOU do... How would YOU Survive?

VENGEANCE starts unlike any of the previous four books. We see the infection through a different set of eyes and meet two new characters.

Megan and her younger brother Sean are left to fend for themselves against the ravenous onslaught of the initial infection, no one saw coming.

With all that's happened, our once close-knit group of survivors have become divided. Those who realize the importance of the trip out into the world of Feeders and those just looking to survive.

Once the decision to go after the man capable of saving the world is made, all that's left is convincing those left behind to let them go.

Help has never been so close... or so far away!

Great EOTWAWKI book

This series is great I read and re read when I am bored and need to read. Something Okay really knows how to deliver Characters and scenarios that keep you interested I wait for his next offerings on the edge of my seat

Jann Weinrich says

Well done

The end came to fast. Or maybe it was because I couldn't put the tablet down and sped read it through.

Cigdem Marco says

I love this series. I don't like the fact that good people are keep dying. But it is still a very good book. I can't wait till next book in the series.

Jessica Kong says

WHY!!!!????

After so many installments, The Dead Years can still get me riled up. I was so angry when one of my favorite characters die. I will not say anymore. You will just have to read the book to find out what happens. I do hope Jeff does not make me wait too long for the next installment. I wonder if there will be new characters.

Not great but a good read

Not great but a good read

As is the case with most online books, there were a fair amount of editing and spelling errors but not as prolific as most. My main gripes are that the story seemed far too predictable, and the writer spends way too much time rehashing what has already happened when the characters need it but the readers don't. WAY too

much time.

Otherwise, the ten novels in the series were a relatively easy read and it was easy to get involved. I found myself yelling at some of the characters who were making stupid decisions while my cat stared.

S Mares says

I enjoyed this book less than the prior 4. The book seemed like it was in a hurry to get from one place to the next. I'm not sure if I will read the rest.

Andrea Payne says

Amazing storytelling.

This author is an amazing storyteller. There doesn't seem to be a plot, it's not overloaded with information about the setting of other unnecessary descriptive aspects which take away from a story... It's just simply that... a story, and an amazing one at that.

Victor says

I like this series. Very well, clean read. I enjoyed this read. I rate it 4 out of 5 stars.

Billie Lang says

Can't wait for next volume

Review

Another good book from Jeff olah, in this instalment we meet new characters and still the story continues to unfold.
