The Gathering: Gideon and Kalie Ellis Leigh

You are cordially invited to the event of the season...

?Please be our guest as the National Association of the Lycan Brotherhood hosts the seventy-eighth annual Gathering. The biggest event of the social season, the Gathering has become the favorite method of networking among packs and bringing together fated mates. At the Gathering, shifters from across the country show up to show off and to see who's the true leader of the pack.

Day two of the Gathering is set aside for interpack business. Shewolf Kalie and her new mate find this truth out the hard way, as her Alpha demands she spend time with another male shifter in the hope of an alliance. Gideon Kelly assumed finding his mate would be the hardest part of the Gathering, but watching Kalie be charmed by another man while he's forced to stay on the outside tests the shifter's control. When an innocent gesture is taken out of context, Gideon goes from respecting an Alpha's rules to breaking them, while Kalie fights for her right to claim and be claimed.

Come and enjoy tales from the biggest shifter event of the year as wolves from around the country fall in lust, in love, and in fate at the Gathering.

Each Gathering Tale is a stand-alone short romance, though reading them in order introduces characters as the author intended.

I was given a copy of this book by the author for an honest review.

As with the first Gathering book and the original series, The Feral Breed Brotherhood Series, I love Gideon and Kalie's story. Gideon and Kalie seemed to have a little more conflict to overcome than Killian and Lyra, but both couples succeeded. I love the shifters in this world, as that you can feel the instincts of the wolf, which sometimes is at odds with the human. I look forward to the rest of both series, at least one more Gathering book and three more Feral Breed books.

I'd recommend this, and all of these books, to any fan of wolf shifter books.

Another great HOT read with a little suspense thrown in. If her lunch date had touched her again, Gideon would have come through the window and killed him. Their mating in the hall was hot and couldn't wait. I don't want to give away to much. This book held you from the first page and couldn't be put down till it was finished. Can't wait for third book. I received this book as a gift for an honest review. Love Ms Leigh's books. Don't miss this series. Patsy Sacco

OMG! I could not put this book down. It kept me entertained. I laughed, and secretly wished I was Kalie to be loved, and handled just the way I needed. Gideon fulfilled her needs ASAP without even claiming her as he wished to do but the timing wasn't right. Kalie had a previous engagement but a little taste never hurt anyone. But once Gideon seen another wolf touch his mate his wolf took over he had to claim his mate and protect what's his. My only problem with this book was that it was not long enough, hence mini series. Cannot wait for book 3.

Love those alpha males and their alpha females

Love how these couples come together hot as it is I love that even for a short they have feelings. And there's enough issues attempting to keep them apart, I love that they seem to be so eager to find their true mates that they understand how silly it is to fight what most of us would kill for. I really hope to see Winslow's story.

Katie says

I love this one, too! I just think I was still hungover from Killian to fully appreciate Gideon. He's such a great hero, and Kalie is wonderful. I really love how the author incorporates the Omega stealing from the Feral Breed books into this one by having Kalie be an Omega and under such heavy security.

This is a lovely, fun, steamy read! You'll love Gideon and Kalie. Oh, and you'll come to adore soundproof closets.

I received this as an ARC in exchange for an honest review.

Mojca says

While its predecessor was cute, sexy, and funny, this one was its opposite. Not cute, not sexy, and not funny. It just was. He was in his wolf form in the woods, she was on her balcony, their eyes met, they got to "know" each other in her closet, she went to a luncheon with another wolf, he went a little crazy, they fucked in the hallway, decided she'd move into his pack, since she's an Omega, and went for another bout in the closet. The end.

Formulaic, template-y, and bland.

Donna says

Oh My Goodness.....

It was so intense. I thought I was in the room with them feeling the same intense emotionally they're going through.. Hell I'll never look at a closet the same way again... But was definitely too Short a story especially with the hint about the Omega's being in danger ..

Crystal's Quirky Reviews says

I love this entire series by Author Ellis Leigh. There's not a part I don't love. Every book I've read (and I've read them all to date, multiple times) of the Feral Breed Series is well planned with in depth character, hot and steamy romance scenes and an awesome plot line that is all executed beautifully. Whether it be a short story or a full length novel, you do not want to miss any of these books! The romance scenes alone makes the earth tremble! And let's not forget the humor! If you've not started any of this series then I strongly suggest in doing so. A highly addictive series.

Day 2 of the 78th Annual NALB Gathering finds Gideon of the Southern Appalachia Pack edgy and in need of a run where he catches and is compelled to follow the most intoxicating scent of vanilla and chocolate leading him straight to the beautiful Kalie, a coveted Omega, elders daughter and niece to the Alpha of the Ozanum Pack. Are they willing to fight against all odds to be Mate's?

I received an ARC in exchange for an honest review.

Cheri says

Part two of the Gathering. Just as sexy, filled with sexual tension and strong alpha ignoring the rules. Gideon is hoping to find his mate at the gathering. Katie, an Omega of another pack, must find her mate or agree to have pups by a wolf from a pack. But they are mates. Will they find each other and why is she guarded so well?.

Good love story. Enjoy.

Eleanor (The Book Hammock) says

Pint size perfection.

Squeee!! Another one. Love those little companion stories. And, um... I use naughty words in this one. Hehe Now that his Alpha found his mate, it's time for Gideon. And Gideon is sooooo fucking hot. OMG.

As I've said before, these little stories that are their own series that is actually a companion to a more significant (plot-wise) series, are great to give more volume and depth with all the little side bits of information we learn about the world of shifters Ellis has created.

And if I wasn't clear up until now – I love her world. It's rich, and detailed (but not too nitpicky) and it's hot, hot, hot!!!

Gideon bonding with Kalie just from seeing her back side standing on a porch was such a great scene. The emotion, the actual zap that happens when a male finds his mate is written so true. That's where the swoons began.

Then, when we meet Kalie and the first thing she does is protecting her mate, having not even meeting him face to face, talking to him at all... GAH!

Closets. Let's talk about them for a minute, shall we? I have a small one, but I'm dreaming of a walk-in closet with tons of shelves and hanging space and of course a settee placed in the center... that's also how I imagine Kalie's. Gideon is there with her. 'Nuff said. *faints*

I think my mind started creating future scenarios when we met Winslow (not going to say who he is) and as Kalie says to him whatever it is that she's saying *evil cackle* (nope, not going to say what that is either), my plans for him are almost perfect. I'm living in denial that my plans aren't going to be carried out (because the synopsis for book 3 is out).

***And again, I'm thanking my girl, Ellis, for the early copy. It was me who was lazy and didn't write her review in time. :P*

The Gathering: Kalie and Gideon by Ellis Leigh

After I grabbed book 1 for free off amazon, I went ahead and purchased the 4 book set. EEEP I am loving it. This serial is something new for me. I have never read a book with an Omega before so I was stoked. Kalie is an Omega for her very small wolf pack. Her duty it to mate and produce more Omegas. This is why she is at the gathering. She is here to meet a Beta from another clan.

Gideon is looking for his mate. He helped Killian get his mate but he needs to run and find his. He is stunned when on his run he sees the beautiful red head and knows she is his fated mate.

After a little incident to two meet and get to getting to know each other. However, Kale has a duty for her people. She must meet with the Beta and his Alpha for a lunch. WELL that meeting didn't go over well since the other alpha was a DB and her mate was not happy seeing his woman with another wolf.

I loved seeing where the lunch date did take us and hope to see that beta again really soon!

Gideon and Kalie's claiming scene, or scenes as it were, were super hawt!!! Can't wait for the rest of the books!

Deanna says

This story follows Gideon on his search to find his mate at the big shifter gathering. While out on a run Gideon catches the scent that he can't shake. When he spots Kalie on her balcony, that's it for him he knows he has to get to her. This story is hot, funny and how-you-doin action. You will definitely fall in love with their story.

Tammy says

Really short, but I liked it!

Jenny Delandro says

[

her alpha has already arranged a lunch for her to attend

the wolf at the lunch is part of triad and she is not their mate ... she tells him, she has already found her mate.

Yet another short good read. This one is about Gideon and Kalie.

“Never,” he said, tightening his hold on my ass. “I’ll never stop wanting to claim you, Kalie.”

“Thank the fates for that.”
