## Wild Nights Mary Ellen Courtney

Hannah Spring thought her life was finally settling down. Her job was going great, her crazy family was at a safe distance, and she was dating a man with possibilities. Then her beloved grandmother died.

When Hannah leaves her comfortable lair behind to oversee the burial, she is pulled into an inferno of events that burn away her safe life and challenge even her vivid imagination. Like her grandmother before her, she longs for a port in a storm, but it won't happen without some wild nights.

### **Jaime says**

Mary Ellen Courtney has style! This book takes you beyond the conservative leading characters who share only the facts they want you to know. Her lead character Hannah is alive and HONEST and the author's gift of writing is fresh, provocative, witty, fun, inspiring, intelligent, well-researched OR well-lived, brave, clever, strong, delightful, heart wrenching, humorous, and most of all brilliant!! Loved it.....Thank you Mary Ellen.....now get back to work! Hannah has more to tell us!

### **Julie says**

Wild Nights is a great read. I have to admit, I stayed up until 3:00 am to keep reading it...I didn't want to put it down! I thought it was a great first book by this author and I would definitely read another of her books. The most distinct thing about this book is the author's unique voice - it did not read the way most of the books out there do. My only complaint is that I did not like the main character. I couldn't quite figure out why so many men were attracted to her as I couldn't find the allure. I had a hard time identifying with her....despite that, overall, it was a solid read. \*Received book for free through Goodreads First Reads.

### **Renee says**

This is a lovely book. I can't believe this is a first time author. It is often poignant and sad mixed with so many laugh-out-loud scenarios.

The writing is the highlight of this book for me. The author's voice is unique and distinctive. Sentences and words flow from her pen in ways most writers can only dream they could write. Mary Ellen drops them like strands of pearls. Just when you are done digesting a beautiful sentence another pearl drops in to round out the strand.

Finding an author who can write beautifully as well as tell a great story is a rare find. I hope the books keep coming, and soon. I feel like this character is a real, breathing person, with a life she is actually living, and I want to know what else is going on in her life.

**Mandy Brown says**

This book was great. I didn't put it down. I enjoyed the emotional ups and downs. The author can really weave a great story.
